1	Housing done responsibly to repllace farmland is acceptable	3/6/2023 12:11 PM
2	My wife and I moved here specifically because of Rush's rural character and the fact that it is a right to farm community. We absolutely love our little town!	2/23/2023 9:57 PM
3	Not sure we have a character. We are not a destination for anything. I have lived here over 25 years and basically have reason to go into town, twice a year... to pay my taxes at the town hall.	2/22/2023 9:10 PM
4	I don't feel that there is significant danger of destroying the Town's rural character in the next 10-15 years, and the phrase "rural character" is undefined enough that it doesn't help me distinguish this goal from the goal of preservation of Open Space below.	2/22/2023 8:20 PM
5	Rush's rural character is one of THE primary reasons we moved to Rush 25 years ago. This is a critical attribute which has contributed to our quality of life and living.	2/22/2023 7:53 PM
6	I'm not sure how you can interpret this question/answer. It seems to me like you are going to use people's responses to further whatever your own agenda is. I do think we need a balance of development vs. not but I think the town's opposition to practically all development is impractical.	2/21/2023 10:10 PM

10	If having some urban feel will lower my property taxes significantly (more than 25%), I'm OK with it	2/10/2023 4:42 PM
11	It's a beautiful town that has no character because it is so rural. It needs something other than "ruralness".	2/4/2023 6:26 PM
12	Too many houses being built in surrounding towns and increased traffic. We don't need that here	2/3/2023 9:46 AM
13	This is why many of us like living in Rush.	1/29/2023 6:22 PM
14	Rush needs more businesses and convenience stores, like a diner, shopping, and sundries. The automobile service station in the middle of town is an eye sore. It looks like a used car lot rather than a service station.	1/28/2023 4:56 PM
15	One of the reasons I moved here 5 years ago, and a reason to stay	1/28/2023 12:07 PM
16	I like the historical homes in the hamlet. Building stores and homes with contemporary architecture would not fit well into Rush.	1/27/2023 6:44 PM
17	People and live in Rush for its rural character. This is the most important in future planning	1/27/2023 2:52 PM

20	1. The topmost image on this survey is a natural wooded area, no homes, no businesses -- just the woods. If that is someone's image for Rush, hooray. It is the antithesis of horseshoe solar, business establishments, cluster developments, etc. Henrietta is full of those -- Rush does NOT need them. Only developers, who would not live in the town, want to build such entrapments.	1/25/2023 10:38 AM
21	I like living where there are farm fields and woods.	1/24/2023 4:16 PM
22	I love the farm lands but I also love growth we need a grocery store and a family diner	1/24/2023 3:40 PM

3	Maintaining agricultural operations in my humble opinion is far more important than we can really imagine. Viable farm land - along with people who best know how to utilize it - is disappearing much too quickly from our nation. In this time period of disrupted supply chains and compromised soils, the ability to have local, fresh, healthy food will be of paramount importance in the upcoming decades - perhaps more than it has in the last fifty years.	2/23/2023 9:57 PM
4	I think the farmers, not non-farm owners, should have the main voice in what it means to "maintain the viability of agricultural operations" in the Town.	2/22/2023 8:20 PM
5	I feel agriculture should have a higher weight factor when comparing changes, somewhat equal to maintaining it's rural character.	2/22/2023 7:53 PM
6	What does this even mean, "maintain the viability"? Do you mean financially, biologically, something else? If you want farms to remain viable you need to loosen up your solar restrictions, for one.	2/21/2023 10:10 PM
7	Ag and development are not mutually exclusive. We need SMART growth, and not remain	2/21/2023 9:32 PM

8	Farms and open space are very important and make the town the great place that it is.	2/20/2023 6:04 PM
9	Farmers should also be given the option to use their land for dormant activities (ones that do not have a constant industrial impact) as they see fit if it means maintaining land parcels in their ownership	2/20/2023 10:22 AM
10	If farming and farmers are still viable in the area that's great. If farmers decide to sell their land for non-farm use that should be up to them.	2/19/2023 5:56 PM
11	I'm not sure what this means - what agricultural operations?	2/10/2023 4:42 PM
12	They should be retained to the extent that is realistic. Farming does not support anyone in Rush. There are no "farmers" in Rush. There is a an agri-business or two that does farming, but there are no farmers in a traditional sence (which was the norm since the town was founded.)	2/4/2023 6:26 PM
13	As long as these agricultural operations are of the small, traditional variety and not modern large scale industrial ag operations.	1/30/2023 5:23 PM
14	We must support our farmers!	1/29/2023 6:22 PM
15	Maintaining the viability of agriculture in the Town and surrounding areas does not seem important to the owners of this land, since they got in bed with the solar panel companies, why should it be important to me.	1/28/2023 4:56 PM
16	I like being part of an agricultural community and try and support them as much as I can	1/28/2023 12:07 PM
17	We all rely on farmers!!!	1/27/2023 6:44 PM
18	Monroe County keeps getting built on. Rush understands the importance of being a farming community. This is for our local farmers, not just the huge, multi-million dollar farming operations that own land in Rush and do not live in Rush.	1/27/2023 2:52 PM

21	The importance of prime agricultural land with respect to global climate change needs to be recognized and stated	1/24/2023 1:00 PM
22	This message here is not to ignore resident feedback by simply rubber stamping every proposed solar project. I'm not against solar but it should not be wiping out massive parcels of farmland and fencing out wildlife. Find a way to install it down the middle of 390.	1/23/2023 7:19 PM

3	Existing space not well maintained	3/6/2023 3:15 PM
4	Yes, we need room for humans and wildlife and the option to develop more farming not only to help our immediate community but the surrounding communities.	2/23/2023 9:57 PM
5	I need a definition or example to comment on this. The "open space" at the corner of 251 and 15A is an embarrassment. Should have been cleared and maintained by the town by now. People who travel through this busy intersection every day must believe we have no pride in our town.	2/22/2023 9:10 PM
6	My comment below makes a suggestion for how additional development in the town could be concentrated in particular areas, allowing for the preservation of open space in the rest of the town.	2/22/2023 8:20 PM

8	Again this question is too qualitative. Yes, I think open space is important. But I hesitate to say "very important" because based on previous experience people in this town will take that to mean that there should be no changes, anywhere, ever. I think that nature is important.	2/21/2023 10:10 PM
9	Open space that is accesible to the public is very important. Acres of mown lawns covered in pesticides is unsupportable and unnatural.	2/21/2023 9:32 PM
10	Helps maintain habitat.	2/20/2023 6:04 PM
11	Public access to more trails for recreation (running & cycling) would be great. something similar to crescent trails in perinton & victor trail networks.	2/20/2023 4:22 PM
12	Parks are available but need some attention and maintenance	2/20/2023 10:22 AM
13	Biking and running trails and river access are very important.	2/19/2023 5:56 PM
14	What does "open space" mean here? I don't think there's a great need to acquire more public (e.g.) park land or require new builds to have larger lots	2/14/2023 1:15 PM
15	Improve/create safe non -motor-vehicle accessibility (pedestrian & bike) between all zones and RH (see map on last page).	2/13/2023 4:04 PM
16	Mostly against any future tract housing type of development. I'm not opposed to solar projects (in moderation) for land that is not being used for farming.	2/11/2023 3:55 PM
17	You can't be any more "open" than Rush is now. If anyone want's anything built anytime soon, some open space needs to be sacrificed.	2/4/2023 6:26 PM
18	Open space as well as farmland is important to the character of the town.	1/29/2023 6:22 PM
19	I do not want to see huge neighborhoods in Rush but do not mind houses being built here and there	1/29/2023 9:42 AM
20	I do not mind losing open space if it is otherwise devoted to recreation and ecological enhancement	1/28/2023 12:07 PM
21	Again, this is the reason we live in Rush and not other towns and villages.	1/27/2023 2:52 PM
22	I know some houses will be built, but I don't want to see any big housing developments.	1/27/2023 2:30 PM
23	A significant method to accomplish this would be to disallow the horseshoe solar implementation which will turn out to be a cancer for Rush, a windfall for Michael Polsky, and a placard for the NYS Governor.	1/25/2023 10:38 AM

20	1. Overall Land Use, Conservation & Development - I have no opinion on keeping the rural character because I'm not sure that is how Rush is perceived by outsiders. Yes we do have farm land but we do not have major agricultural operations in town. Three farm families operate small to moderate sized operations and growth is discouraged. Any potential development has been squashed over and over. To keep this Town affordable, we need to encourage development.	3/7/2023 9:36 AM
21	It's possible to encourage development and maintain the rural nature of our community	3/6/2023 2:52 PM
22	Development limited to appropriate zoning & locations	3/3/2023 3:46 PM
23	Encourage more development is an ambiguous statement. What kind of development? I would encourage development, both business and housing that is restrained in size and fits within a rural landscape. Business: Nothing that generates parking lots full of cars. Housing and Business: Nothing several storeys tall.	3/3/2023 2:54 PM

35	The reason I moved here and live here is because it is a special country setting with beautiful views because of the countryside, trees, habitat, clean air, a quiet place with parkland, trails forested land, etc. It is a beautiful place and close to amenities.	3/1/2023 1:53 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

other ways of developing the land, agriculture maintains, even creates, the characteristics of a rural community, which is what I (and I am not a farmer), and everyone I know, wants to protect in Rush. Agriculture thrives in Rush. We have the highest quality of soil and as a Right To Farm community, the importance of farming has been affirmed in our town. Open space which is not actively farmed is also important. But unless it is parkland, or otherwise owned by local, county or state government, it is privately owned. So the landowners hold the decision-making power regarding whether their land will remain open. We all benefit when landowners decide to protect their own open land. There is a mistaken belief that bringing in new housing will give us a healthier tax base. It's wrong, because residential development demands a variety of services, all of which cost more. Agriculture and unfarmed open land do not require services, so do not add to costs and raise our taxes.

41	Additional common-sense, restricted development and the resulting increases in revenue to the Town are very important.	2/28/2023 4:17 PM
42	Development should not compromise the quality of rural character of Rush.	2/28/2023 3:40 PM
43	Would like to see some "classier" additions to Rush Town Center. Look at Canandaigua on a smaller scale, of course.	2/28/2023 3:21 PM
44	#1	2/28/2023 3:02 PM
45	I like the rural character of the town but some modernization with small stores & industries would be nice.	2/28/2023 2:48 PM
46	It would be nice to have a business where the Big M used to be.	2/28/2023 2:29 PM
47	Should be a balance of all 4 goals to achieve a vibrant town.	2/28/2023 1:53 PM
48	Wherever owns & pays taxes on the land should decide what they do with it	2/24/2023 2:39 PM
49	Keep Rush a farming community Moved here 8 years ago to be away from Henrietta	2/24/2023 11:31 AM
50	Whatever may bedone to spur	2/23/2023 12:23 PM
51	To support the town in the long-term, we need to have a secure tax base. Smart development, which might include multifamily housing, businesses and other targeted development (for example, within 1 mile of the Henrietta Town line or within a 1-2 mile radius of the Hamlet) can help diversify and secure our tax base.	2/22/2023 8:20 PM
52	Smart development should be encouraged. I honestly cannot say that large development will lower property taxes -- hogwash. Development that aligns to maintaining Rush's rural character, agricultural perspectives and priorities and open space preservation should always be considered, but via strict guidelines to maintain what we have should always be critical to the evaluation process. Continue to listen to your residents, not the squeekly wheel and overly vocal singletons who want to benefit without upholding critical tenents that make Rush what it is today.	2/22/2023 7:53 PM
53	Rural character can be maintained with adding business	2/22/2023 3:41 PM
54	The Chase-wolover Fence Act is detrimental to residents who do not male over \$10K per year in "agriculture". If you don't already make \$10K per year there is no way to expand or begin.	2/22/2023 3:32 PM
55	a happy medium between maintaining our roots & accommodating new generations.	2/22/2023 2:18 PM
56	Rush is a residential, agricultural town.	2/22/2023 11:45 AM
57	There needs to be a balance. So far everything has been opposed. I would have liked to see the type of development at 251 & 15 that was proposed about a decade ago, for example. But I don't want housing developments. Serve the community vs. serve single families. Solar is preferable to housing. Honestly I find solar preferable to normal farming operations (fertilizer, chemicals, loud machinery).	2/21/2023 10:10 PM
58	Again - smart development. We need more in the Hamlet to bring people together and have a reason to go there. A coffee shop, a community center, etc. Somewhere that residents can actually meet each other and find an opportunity to create a real Rush community, inclusive of all residents, young, old, new, or lifers.	2/21/2023 9:32 PM
59	I see no problem with having additional semi-industrial development in areas in the northern end of the town, convenient to the expressway entrance.	2/21/2023 6:36 PM

98	Would like to see 'residential' vs Industrial Development.	2/14/2023 1:18 PM
99	Rural character and open space are essential for Rush's identity and its desirability as a place to live. Prime agricultural land must be preserved for the future, where it will be a critical need in the face of climate change impacts. But Rush as a community is greatly in need of smart development as well. The hamlet would greatly benefit from the right kind of development. But the greatest need is for the development of diverse housing. Smart development (emphasis on "smart") and rural preservation are not mutually exclusive. On the contrary, it is the path forward for a strong evolving community.	2/13/2023 4:13 PM
100	Development should be encouraged on all vacant commercial/industrial properties.	2/13/2023 3:30 PM
101	What are agricultural operations? Encourage old (old Dorshel corner, corner of W Henrietta and 251) existing development - revamp the hamlet, previous Big M old buildings. Not new or more development, just existing.	2/13/2023 3:20 PM
102	Regarding development, housing and infrastructure is very important with community building businesses.	2/13/2023 1:54 PM
103	Rural character is past. Town needs to purchase all land to preserve open space and not dictate owners bare burden.	2/13/2023 1:22 PM
104	We need business in town to helpout with taxes	2/13/2023 10:48 AM
105	Everything you want is in Henrietta 5 miles away. Keep it simply stupid.	2/13/2023 10:33 AM
106	Keep the town small but healthy	2/13/2023 10:15 AM
107	No subdivisions	2/13/2023 8:53 AM
108	This is addressed in the next question.	2/11/2023 3:55 PM
109	Corner of 251 & W Henrietta Rd - make that green space on empty lot.	2/10/2023 5:21 PM
110	If development leads to lower property taxes, than I'm OK with it	2/10/2023 4:42 PM
111	Define rural character & explain what is meant by development - unclear.	2/10/2023 4:24 PM
112	The Rush town center needs more attention, more places to gather - grocery store, coffee shop, etc.	2/10/2023 3:16 PM
113	Moreso in the center of town than more rural areas...	2/8/2023 9:40 AM
114	Do we really have any real farmers in Rush toda? How many and total revenue from farmers?	2/6/2023 1:45 PM
115	Places like the old Big M lot are crying out for redevelopment.	2/5/2023 2:39 PM
116	Rush should make small steps towards being an affordable community for the people who have always lived there (until the 1980s that is.) Mainly, working class people with families, not just college educated professionals that need to commute to a job. Some jobs need to be creted in Rush that are within walking/short drive distance from people who can afford to live in town.	2/4/2023 6:26 PM
117	Rush could seriously use more housing development. That development should be controlled in designated areas. Rush needs to expand its tax base so that it can afford to bring in public water for residents who are suffering from bad well water.	2/2/2023 1:23 PM
118	In fact, it is hard to see how encouraging more development is in line with preserving the rural character. Some very select development could fit in.	1/30/2023 5:23 PM
119	We should NOT encourage more development, except perhaps in a few specific locations.	1/29/2023 6:22 PM

127	Rush's rural nature should be preserved.	1/26/2023 3:09 PM
128	What about "allow" more development? It doesn't need to be encouraged. It'll happen if we let it.	1/26/2023 9:26 AM

132	We need a grocery store 7/11 is terrible and a family diner the pizza place, Colby's and creek side do not count as family diners	1/24/2023 3:40 PM
133	Any development should happen only after involvement of residents and second opinions by independent experts. Communication and outreach have historically been inadequate.	1/24/2023 2:37 PM
134	While some development might be convenient, Rush has a moderate tax rate and development for the sake of reducing taxes is unnecessary	1/24/2023 1:00 PM
135	depends upon WHAT the development is and how big the company is	1/24/2023 12:14 PM
136	The vacant and unused commercial spaces are an eyesore and steps should be taken to encourage, aid and stimulate productive use and development of these spaces.	1/23/2023 8:39 PM
137	Outside of improving the hamlet and adding minor amenities and conveniences no.	1/20/2023 6:25 PM

35	I would like to see more small businesses, but with a few anchor larger businesses so the residents of Rush don't have to go to Honeoye Falls or to Rochester to get the best prices for merchandise and groceries.	1/30/2023 7:33 PM
36	I grew up in Rush. I remember going to the Rush Big M. I remember the beautiful shop on the corner that sold furniture and other items I remember the craft sales near the water falls. I remember how much I loved seeing the families I grew up with and hanging with them and their children at the ice cream counter at the Big Moo. What made Rush special then was the community. It gave us a sense of home and belonging. We had that for many years and it did not change the rural beauty of Rush. It doesn't have to. Small businesses add character and bring communities together. It allows a place for our elders to gather and tell and share stories. I have been to all the towns that surround us, Honeoye Falls, Scottsville, Mendon, Pittsford. I	1/29/2023 9:42 AM

While I do want the sense of the hamlet to be maintained and do not want glaring renovations, I also do not want to be so restrictive that it causes potential renters/owners from choosing the hamlet I would be in favor of zoning that permits a building to be both a small business as well as a second story living space. I would be supportive of	3/3/2023 2:54 PM

"accessory" additions or modifications to barns and/or garages to make them friendly to small businesses. But again, the small business cannot have lots of parking needs. Joele's is ideal, from my perspective in terms of parking behind the shop. The shop is not historical in appearance and if it were to be remodeled externally, I would ask the owner to consider a more historical "feel" for the external remodel.

51	# 1 The hamlet offers everything that we need. Anything else we might want is just minutes away in neighboring towns. There is no sense in duplicating what is already so easily available. It would end up bringing more traffic and harming the essence of our town as we lnow and love it. And it would make Rush less attractive to new people who want to live away from the type of identical chain businesses that are pretty much everywhere else. If businesses thought they could succeed in the hamlet, they would certainly take action to establish themselves there. A number of businesses have opened, only to close when they did not succeed here. Some examples: dry cleaner, bookstore, hardware store, liquor store, gift shop, coffee shop, kayak/canoe rentals, computer services, to name a few. There are at least two empty storefronts now in the hamlet, plus the vacant lot where the Big M closed many years ago. If Rush would be a desirable business location then businesses would pursue Rush as a place	2/28/2023 4:25 PM

One of America's greatest innovations was the small walkable town. 149	The hamlet needs to become more amenable to pedestrian traffic. Parks, benches, tables, and control of automobile traffic need to be considered.	1/24/2023 1:00 PM
150	If restrictions inhibit small business development, it shouldn't be required. That said, appropriate size and general town appearance should leading practice.	1/23/2023 2:38 PM
151	We also need to beautify existing structures - the hamlet would greatly benefit from additional upkeep to homes and buildings that currently look worn, rundown, or empty.	1/23/2023 7:52 AM

11	I believe there exists a variety today. Would not want to see apartment bldgs or town home complexes. Restrict construction to single std homes.	2/22/2023 9:10 PM
12	Single-family homes or small, moderate or large sized lots (Foster Brooks' property for example) should be considered but not at the expense of damaging Rush's rural character, agricultural prioritization and open space preservation. I oppose Townhouses or Patio Homes or Cluster Developments or large scale (5+) apartment complexes or Duplexes/triplexes.	2/22/2023 7:53 PM
13	Options should be open to all walks of life and potential housing types. I would not want to preclude anyone who owns a parcel of land that is adequate for their needs from building a home as they see fit.	2/20/2023 10:22 AM

18	I am strongly opposed to dense housing in Rush. Therefore typical townhouses, patio homes, and cluster developments are not what I want to see. However, there can be very attractive duplexes/triplexes like the development on East Avenue where houses are linked in a semi-oblong arrangement. Single family homes on small or large rural lots are more a function of the owners' financial state as well as the land sellers' willingness to sell portions of land. I am in favor of accessory dwellings- attached, barns or garages. I think these are what Rush Seniors	3/3/2023 2:54 PM

want, not "senior housing" based on frequent discussions at the Rush Seniors meetings. So many of our children have returned to Rush to raise their families, returning from all over the US after moving away. They can now "work from home" and home is Rush.

32	AOU's Please!	2/28/2023 4:35 PM
33	# 1 There is already a wide variety of housing options in Rush. There are existing homes that are small, modest, more affordable homes, as well as mid-range, medium size homes, and very large "McMansions" which are found both in developments such as Boulder Creek and Thunder Ridge, as well as in settings where they stand alone. Some, but not all, are on large parcels of land, which raises the cost. The same is true of smaller homes - those which are on large amounts of land cost much more. "For Sale" signs are in front of a number of very nice, existing homes on small lots which would be affordable. We could think about the possibility of adding multiple dwelling choices in areas where the infrastructure would support them. There are sewers on state land at the Industry school. If that school is downsizing or maybe even closing, that could be a place to put multiple dwelling homes. The lack of transportation and other services has to be considered for people who could live in those units. #2 Senior housing: Any new housing, for any population, but especially for senior citizens, has to be carefully thought out. It makes absolutely no sense to build new homes where there are not necessary services, such as transportation, access to goods and services, etc. Seniors aren't going to want to live where they are left without any way to get to things they want and need. They have to be able to easily get to a grocery store, bank, drug store, etc. If they are not on a bus line, and don't drive, they will be stuck in a place without the necessities. That doesn't make sense for them or anyone in town. We are really lucky to have Pinehurst in Honeoye Falls and the Legacy at Erie Station. They are both just a few minutes away, and they are very established with responsible management. We should never let developers who have no experience with good senior housing and all of the services that seniors need build housing that won't meet the needs of the seniors, and will probably be too expensive anyway. More dense development: This does not make sense for a town without sewers, and sewers should not be added because they would result in suburban sprawl. It becomes more and more difficult for farmers to continue to farm in a suburban setting. As a town and as a region, smart growth means developing areas which have the necessary infrastructure and which can accommodate more dense development without threatening the surrounding ecosystem and changing the character of Rush.	2/28/2023 4:25 PM
34	We need additional housing that is more accessible for seniors and more affordable for younger, growing families.	2/28/2023 4:17 PM

38	Again, whoever owns the land should have a BIG Say	2/24/2023 2:39 PM
39	I think co-location and dwellings for extended family members will be very important and useful for our community with the continued economic turmoil. I also think exploring non-traditional structures and materials - eg. earth ships, aircrete, wofati's could be a huge benefit to our local community and encourage both younger adventurous people to move here as well as being a draw/ provide accommodations for regional and agro-tourism.	2/23/2023 9:57 PM
40	Home ownership should remain a goal	2/23/2023 10:33 AM
41	I think we need a much wider array of available housing options to attract young people and young families to the the town. And in order for those to be attractive they should also be concentrated in a way that children could play, streets in a development could have sidewalks, and so that the housing is connected to any sort of small businesses in the town - make things attractive by making them walkable/bikeable. Also, if the town is serious about Senior housing, there would need to be infrastructure that allowed for public transportation to Henrietta for shopping, pharmacies etc.	2/22/2023 8:20 PM
42	There should be room for all types of housing to allow more of our families to live in Rush.	2/22/2023 3:24 PM

72	The housing situation in Rush is highly unfavorable to diversity in the community. What we have here is a de facto gated community perpetuated by the lack of housing options. This town needs to open its mind to the possibilities of all manner of housing options as a way of strengthening the community and the economic base through a much more diverse population, and this is why I have selected all options on the survey. If housing development is done right (again, emphasis on "smart"), our current population can share what we love about Rush with people living in a variety of housing situations - including down-sized seniors who have been longtime Rush residents!	2/13/2023 4:13 PM

77	What a biased way to phrase a question with the obvious intent to influence the answer. "Concentrated" can be made attractive and appealing by zoning requirements. Your choice of the word "concentrated" is going to influence the way people asnwer this question. Why didn't you ask, "Do you think a concentrated housing development designed in character with the rest of the town would be appealing?" You should cover up. Your bias is showing.	2/4/2023 6:26 PM

79	There is no reason why Rush cannot have designated areas of denser housing development as long as it is controlled. Why not? Of course these areas would require public water and sewer systems.	2/2/2023 1:23 PM
80	Yes, what makes a town appealing is to have a "theme" of what all housing has to follow, so there is uniformity and consistency and to offer different housing types at all income levels.	1/30/2023 7:33 PM
81	If done to maximize the preservation of open space. In other words, in conjunction with clustered development along the lines of the defeated proposal for the Foster Brooks estate. Look at the clustered homes/buildings and hamlets in the [rural] European countryside as examples of preserving open space and rural character, while creating human-scaled communities -- the opposite of 1-, 2-, 5-, or 10-acre lots of mowed lawns and single-family homes, which totally destroy a "rural character".	1/30/2023 5:23 PM
82	We would need a sewer system in Rush.	1/30/2023 1:34 PM

87	The ONLY exception, as stated above, would exclusively be for senior housing within the hamlet.	1/28/2023 11:44 AM
88	It's not a yes or no question. It depends on the design & layout. Why are you trying to force a black & white dichotomy?	1/26/2023 9:26 AM

93	This type of housing helps to conserve open space instead of large homes on large lots.	1/23/2023 4:56 PM

35	My first criteria for the type of business and economic development is NO SEWERS NEEDED. After the pandemic, working from home is possible, desirable by many, reduces traffic and congestion, permits more flexible hours, etc. Therefore, we should allow small business to exist in rural homes as long as there are not parking needs, noise, external lights, etc. The challenge comes when a small business is of limited concern to neighbors but successfully grows, wants to expand in place and outpaces neighbors' acceptability.	3/3/2023 2:54 PM

74	This question strikes me as being about sewers, not about businesses. My answer is small businesses and limited-industrial development - regardless of sewer requirements. There are strong economic (business) and environmental reasons to encourage the extension of sewers from Henrietta into the Town of Rush (since we missed the opportunity to develop our own sewer system sometime in the Historic past). Why would businesses (of almost any size, but maybe especially small businesses) decide to set up shop in our town where they are required have the space and maintain a septic system when they could choose any of the neighboring towns that would offer them a sewer hook up. We could limit the sewer connection to Henrietta to something like within 1-1.5miles of the Henrietta town line, concentrate new housing and development, and not lose the overall rural character/open space feeling of the town.	2/22/2023 8:20 PM
75	What a disingenuous formulation. Small businesses can use sewers too.	2/22/2023 8:10 PM
76	I'm all for small businesses not needing public sewer services as long as they contribute to and enhance Rush's rural character.	2/22/2023 7:53 PM
77	I think public sewer service is important to attract any business.	2/22/2023 3:41 PM
78	Again - we should be able to have a diversity of businesses in the right places - our town is large with major roads & intersections where development is reasonable and expectul "?".	2/22/2023 3:24 PM
79	You could do a "Livingston Office Park" thing close to 390 or by Cantel on 15. They need sewer? Give 'em sewer, make their subsidizing it part of the deal. Why would it be closer to town? Companies love easy expressway access anyhow. Restrict it to , say, 390 to R-H TI Rd to complement the development on the east side of 15. A coffee shop and the return of a small grocery would be nice.	2/22/2023 2:56 PM

85	Re Limited-industrial: Not near town - but it would help Rush taxes & provide jobs	2/22/2023 11:28 AM
86	The questions of types of businesses vs. the questions of sewers need to be separate, or at least provided with better context. I'm not sure how to answer this question accurately. I'd love to see something like a Byrne Dairy in town, which I don't consider limited-industrial or large-scale but it does probably require sewer.....??? We need an ice cream stand and I would love a microbrewery, and a cafe/bakery.	2/21/2023 10:10 PM
87	Again - the choices are obviously skewed in one direction. Reasonable, smart development. Small businesses, yes. But we DO need sewers to support development and save our environment	2/21/2023 9:32 PM
88	I think that the addition of not needing sewers above is short sighted. Additions of restaurants or even a microbrewery could be a nice draw for other small businesses.	2/21/2023 6:36 PM

135	There is a fallacious assumption in this question that makes it impossible to answer as written. This assumption is that only large-scale business and industrial development would need sewers. Whoever put this question together on the survey simply doesn't understand business operation. Virtually any small business would prefer to have a sewer hookup, and many would need one to be able to operate properly unless they were situated on a very large lot. Furthermore, the absence of sewers in the hamlet is not only an unacceptable situation because of the conditions there (antiquated septic systems combined with the flood risk and the pollution risk to the creek). It is an obvious barrier for any prospective modern small business in the hamlet - most significantly with the former Big M lot, but really any modern business that would significantly enhance the hamlet business community.	2/13/2023 4:13 PM
136	Coffee shop, small grocery store/farm market	2/13/2023 4:04 PM
137	Misleading question. I am pro-sewers but for homes and small businesses. There is no option for this. It is a very badly worded question. I don't like the idea of storing septic waste all over town.	2/13/2023 3:49 PM

156	Rush definitely needs a grocery/supermarket store. For that to happen, the town would have to provide public water and sewer service. No business like that could come to Rush without a sewer and public water hookup.	2/2/2023 1:23 PM
157	I didn't realize public sewer was such a big thing. I would love to see a Walmart Green in Rush, which other states have. 13	As I've stated clearly, NO SEWERS! So the question of whether the Hamlet needs sewers is unnecessary. There is talk of pollution on Honeoye Creek but no proof. Is there a homeowner or business whose septic is not properly sized or in poor repair? Have the Health Department do an inspection along the Creek and cite any infractions and remediate them at the property owners' expense. I believe that once sewers enter the town, our rural nature will be lost as developers will eagerly seek sewers for their development plans. Henrietta is building at an	3/3/2023 2:54 PM

28	# 1 Sewers would bring suburban sprawl which is unhealthy for the entire region at a time when we know that we have to take steps to reduce global warming. It is very strange when some people want to convince others that sewers are the way to go environmentally as compared to septic systems. That is, of course, true in densely developed areas, but not in less developed areas. It is not true that sewers could be established in a limited area and never allowed to extend beyond that area. This would not hold up in court. People who want sewers extended to develop their land will sue the town saying it is arbitrary and capricious to allow sewers for some but deny sewers for others. Sewers have their own set of drawbacks, even beyond the destruction of habitat which results from more dense development. Storms and other situations (tree roots, etc.) cause sewer lines to rupture, backup into people's homes, and more. I know this first-hand from friends and relatives who have had the disgusting situation of sewage seeping into their modern, well-kept homes. I've had floodwater and no one wants that in their home, but storm water is a whole different thing from having sewage get into your home. Sewers should not be brought to Rush.	2/28/2023 4:25 PM
29	The note at the beginning of this question is entirely out of line! It is argumentative and misleading! It certainly exposes the manipulative nature of this committee. This is also seen in the prior question. Sewers are needed in the hamlet, but also should be seriously considered for limited areas of small industrial or residential development. The Town of Rush will NEVER "turn into Henrietta" as professed by some of our local fear mongers, who, by attaching the "Note" to this question are just perpetuating their nonsense.	2/28/2023 4:17 PM

81	No evidence exists that there are sewage-related problems in the hamlet. This has been confirmed by both the NYSDEC and the Monroe County Department of Health.	1/24/2023 1:00 PM
82	would be nice to get off of the septic systems	1/24/2023 12:21 PM
83	If sewers are introduced, we should not involve Henrietta. Rush could build a limited sized system that would service the hamlet.	1/23/2023 2:14 PM
84	Absolutely not. Unless the town opens itself up to industrial or commercial development (which I hope it does not) a sewer is a costly, unnecessary burden with the potential to compromise not only the pocketbooks of Rush residents , but the health and water quality in the town.	1/23/2023 7:52 AM

21	#2 Safe water for drinking and general household use is obviously a necessity. However, it is not fair to have the town extend water lines which will result in expenses to families who do not need or do not want the water and cannot afford the exorbitant costs over the next three decades and maybe longer. This is the opposite of affordable housing! Like sewers, extending water service will create suburban sprawl, which harms the environment and everyone. New homes should definitely not be built where there is not adequate safe water available from a well if not on a public water line. People who want to build have to be fully aware of their own personal decision in this regard. Developers have to be honest and held accountable. When they are dishonest the town has to hold them accountable. But once there are new residences without safe and adequate water, serious damage has already been done.	2/28/2023 4:25 PM

52	Very good public water.	2/13/2023 5:09 PM
53	Currently our drinking water quality and quantity is adequate. However, because we are on a well, that statement requires the qualification, "so far, so good." A well is simply not a resource that can be counted on indefinitely, especially now that we have entered a time when natural water resources are failing in many areas of the country. And in light of the fact that there are severe well problems in Rush. Public water is the only long-term dependable solution.	2/13/2023 4:13 PM

70	The fact that there is public water available in the more "rural" parts of Rush (which aren't so rural anymore) and that residents are consistently met with resistance when trying to hook up to public water is ridiculous. Living in Monroe County, residents should be able to have access to public water.	1/25/2023 12:01 PM
71	While the availability of potable water is a worldwide issue, it tends to be overlooked in the US because of our first-world status. However, it is critical. Our town should take responsibility for identifying and regulating areas in which potable water supply is unavailable.	1/24/2023 1:00 PM

14	This is a pretty low priority for me.	2/22/2023 8:20 PM
15	Historic building preservation should be weighed depending on the property and the condition of the property. If the property presents threats to public safety, other measures should be taken.	2/22/2023 7:53 PM
16	I don't know if it is the Town's responsibility to do these activities.	2/22/2023 3:24 PM
17	Please define "historic". At face value, this seems important. But then this concept gets used to preserve places like the "1911 house" which is ridiculous.	2/21/2023 10:10 PM
18	If they are on the National Registry, an official historic site, then definitely need to preserve if possible. If it's a building that just has sentimental value or has been around a long time, I don't think it needs preservation if the cost of repairing/maintining it does not meet the needs of the community.	2/21/2023 9:32 PM
19	When someone purchase property they should be able to do what they want with it	2/16/2023 3:53 PM

21	Which historic buildings are you referring to? The 1911 House? Bulldoze - too expensive to repair. Fix up Papas Garage - it looks like trash.	2/13/2023 3:20 PM
22	If the amount to fix/maintain/upkeep is viable and paid for, then yes. Otherwise maybe replacement is needed. There isn't much "historic" save for some specific residences (old farm houses or such.)	2/4/2023 6:26 PM
23	How will anyone know there is a long time history of a town if the visual appearance doesn't give that as a first impression.	1/30/2023 7:33 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

11	What makes the standard?	3/3/2023 8:10 AM
12	DO WE HAVE ANY??	3/3/2023 8:05 AM
13	What re the historic buildings?	3/1/2023 2:42 PM
14	The historic buildings should be registered, have a plack on the building indicating such and possibly a posted plack giving a brief history.	2/28/2023 4:53 PM
15	Under "Create a list...": must be legit, significant historic buildings. Who designates? Under "For buildings and sites...": maybe - are legally/legitimately. Who in the town designates what buildings are historic? What are the permit requirements? How restrictive are they?	2/28/2023 2:48 PM
16	Depends on the cost to restore however	2/24/2023 1:12 PM
17	As a home owner with a passion for historic homes, forming a local group/ committee to meet, assist with work and offer help and information to home owners working to preserve these structures could be an asset to all involved - especially our town and new home owners!	2/23/2023 9:57 PM
18	Don't restrict property use based on other people's esthetic sense	2/23/2023 2:12 PM
19	As long as it's not too much oversight	2/23/2023 11:06 AM
20	There is not a "no action needed" option here - seems to lead us to choose some action even if "no opinion" or "not at all important" was chosen in the last question.	2/22/2023 8:20 PM
21	Permits should not just be for improvements but also removal. Make demolition difficult and require reclaiming/recycling first (demo should be a last resort)	2/21/2023 10:10 PM
22	National Registry. All the options listed above are great, but when push comes to shove, if it's not officially declared historic by the national registry, is it really? If the town wants a list for informational purposes, and owners what to share their home's history etc, that's fine. But if that homeowner sell, the purchaser shouldn't be denied changes he/she may want to make based on a previous owner's care of the place.	2/21/2023 9:32 PM
23	Requirement of a special permit is going too far.	2/21/2023 4:05 PM
24	Too many permits (fee) now	2/21/2023 3:34 PM
25	I would not want to hinder any maintenance of an existing home due to some historic regulation, thus supplying owners with information is a positive step but requiring special permits is over the line.	2/20/2023 10:22 AM
26	All great ideas	2/17/2023 2:09 PM
27	I am in favor of historic preservation but I don't want to discourage homeownership by adding restrictions	2/17/2023 8:13 AM
28	For buildings and sites... - this would need to be done with care so as not to make it so burdensome.	2/16/2023 4:33 PM
29	However, do not make the requirements so prohibitive that people cannot afford to take care of the buildings	2/16/2023 4:27 PM
30	None of the above	2/16/2023 2:33 PM
31	same as anyone else!	2/13/2023 3:49 PM
32	Preserve what we have with redeeming value. Don't burden the tax payers with resurrecting the dead.	2/13/2023 3:30 PM
33	What is worth preserving? What happened here that is so significant to be preserved?	2/13/2023 1:54 PM
34	Who's money will be used?	2/13/2023 1:22 PM
35	They shouldn't	2/13/2023 10:35 AM

1	Take the historical nature of Rush seriously we need to monitor what's being done. We believe its possible to maintain old with new to fit the appearance of our beautiful town	3/8/2023 2:28 PM
2	But first: have an existing set of standards	3/3/2023 4:09 PM
3	Make it easier to improve historic homes, don't create a burden	3/3/2023 3:46 PM
4	Another option should have been given: create the list of locally significant historic buildings and sites in town and then create a historic district if there is a notable density of these historic resources. I'm not sure if there is a density that warrants a district but if one were to consider Rush Henrietta Town Line Road on the westside of town plus Henrietta's cobblestones there, perhaps a district is worthy of consideration in both towns.	3/3/2023 2:54 PM

9	We have historic buildings? Downtown looks awful.	2/28/2023 4:35 PM
10	Acknowledging and recognizing locally "historic" buildings and properties is important, but I strongly disagree with the concept of the town telling people what they can and cannot do with their own property "to ensure that they meet standards".	2/28/2023 4:17 PM
11	What ones? I don't see any quaint historic buildings. The library is nice.	2/28/2023 3:02 PM
12	It is fine for the Town Historian to create a list of locally significant buildings & sites. I don't think anything else is necessary.	2/22/2023 8:20 PM

pesticide/herbicide usage. There are few "animal" farms (dairy, meat) so animal waste is not an issue in our town. Other remediation plans will need to be researched and implemented. Please think of our residents who deal with flooding issues on a regular basis. 45	I have seen sawdust and white foam & soap like bubbles in the stream behind us whenever there is a large runoff in the Spring or after storm.	2/28/2023 4:53 PM
46	Yes, my property floods and the water at times causes significant damage. My neighbors' properties also flood. We all have to pay the costs to repair damages. There is every indication that flooding will increase. This is a serious concern for us now and even more serious for the future. Flooding in the hamlet has already been very serious. People's homes have been damaged. The area of the four comers at Rt. 251 and Rt. 15A badly flooded and has had to be closed to traffic. We can only expect flooding to increase. We owe it to both present and future residents of Rush to work on ways to control the flooding. Not approving building upstream of vulnerable areas is an important way to protect people and property. Sewers would not make a difference with this concern. It is saturation of the ground and storm water runoff that causes flooding. Sewers won't prevent flooding, but flooding will threaten the sewers as noted above, and then the sewers will threaten our homes and health.	2/28/2023 4:25 PM

63	We need to be more concerned about our environment and our abuse of it.	2/23/2023 12:35 AM
64	These rivers and creeks are subject to non-point source pollution from run-off from farms, roadways that are salted heavily in the winter, lawns and poorly functioning septic systems. One of the primary environmental reasons to install sewers is to maintain the quality of freshwater sources. If the town aims to expand development in the Hamlet, sewers are an important way to continue to protect these freshwater sources. Because these rivers/creeks flow into Lake Ontario, also impact the quality of drinking water for residents of Monroe County, and though Rush residents' county water doesn't currently come from Lake Ontario, it could in the future.	2/22/2023 8:20 PM

74	the hamlet needs drainage badly. Do you guys see it floodingZ?	2/21/2023 3:34 PM
75	I wish the water ways supported wildlife better than they do.	2/21/2023 3:31 PM
76	Heavy rain farm fields flood	2/21/2023 3:18 PM
77	Water quality always matters	2/21/2023 12:48 PM
78	No Sewers limit options to septic tanks. Septic tanks need space to work. Hamlet could impact water quality if not properly managed.	2/20/2023 8:09 PM
79	The creek and river are great natural resources for our region. We have to keep watch.	2/20/2023 6:04 PM
80	I am not aware of any problems, but it is vitally important to monitor these waterways that are crucial to a healthy environment.	2/20/2023 4:56 PM

81	farm runoff, wouldn't think about eating a fish from any waterway in the town	2/20/2023 4:22 PM
82	These are impaired waterbodies.	2/20/2023 2:47 PM
83	I've seen 15A flood after heavy rain in front of Town Hall (drainage issue)? Also creek and river water quality is important.	2/20/2023 1:39 PM
84	As a fisherman Water Quality is always a concern. I have no issue with it now, but worry about the future.	2/20/2023 11:12 AM
85	I do consider the riverways as a vital resource that needs to be cared for in terms of what goes into the river and more careful attention to the runoff managements for farms and roadways.	2/20/2023 10:22 AM
86	They are important waterways that offer character to our town, keeping clean and aesthetically looking good is important	2/19/2023 8:55 PM
87	Rising water never affects the house.	2/17/2023 4:48 PM
88	Water quality? Need better explanation.	2/17/2023 4:31 PM
89	I understand septic/sewage was going into the creek	2/17/2023 2:09 PM
90	I think we should always be concerned about the quality of water bodies - at the very least for environmental purposes	2/17/2023 8:39 AM
91	Creek rises over the lawn but has not affected the house	2/17/2023 8:23 AM
92	Yes - sewers needed to prevent flooding in hamlet into creek	2/16/2023 4:50 PM
93	Should be kept clean, free of debris. Is the water quality in Rush tested? If so, what are the results from creeks & Gen. River flowing here?	2/16/2023 4:06 PM
94	Plan for the town to stop flooding, also I think we should clean up log jams in Creek.	2/16/2023 3:19 PM
95	I love the creek, I wish more drains were added on Park Lane. Heavy rains get bad	2/16/2023 12:59 PM
96	70% of my land is DEC wetlands	2/16/2023 12:14 PM
97	Concerned about flooding in hamlet.	2/16/2023 10:22 AM
98	I am not familiar with activities in the Town that impact these water bodies.	2/15/2023 6:21 PM
99	Need protection, restoration, perhaps limits on agricultural abuses, excessive useless turf	2/15/2023 5:41 PM
100	I think streams are protected by the DEC already.	2/15/2023 1:22 PM
101	Help keeping them clean, remove the over growth on the banks, within reason.	2/15/2023 11:11 AM
102	Honeoye Creek has several log blockages causing flooding/water backup. Note: Is the town dam necessary?	2/15/2023 10:54 AM
103	All bodies of water should be protected.	2/15/2023 10:38 AM
104	I don't currently know why the water quality is in these locations.	2/14/2023 6:18 PM
105	Whenever it rains hard our yard floods	2/14/2023 5:11 PM
106	We expect our creek-side land to flood, but are concerned when the hamlet and roads are flooded.	2/14/2023 4:37 PM
107	Imperative that any development take into consideration the integrity of current owners land which is some areas is over saturated especially in the Spring.	2/14/2023 1:18 PM
108	Better flooding prevention and water management measures are needed.	2/14/2023 1:15 PM
109	I know there has been flooding in town. Would be nice to find a solution. Clean water is important and haven't seen pollution around in Rush but need to be watchful.	2/13/2023 5:09 PM
110	Flooding in teh central area of town should be addressed. There have been serious problems there in the recent past.	2/13/2023 4:25 PM
111	Town drainage is flawed in spots - creates standing water, flooding when rain hard/long.	2/13/2023 4:04 PM

	twice.	
113	Water quality in Honeoye Creek is suspect.	2/13/2023 3:30 PM
114	The Honeoye Creek water is disgusting. I live on the creek and I'm not sure what's in the water.	2/13/2023 3:20 PM
115	Clean water must be available for all living creatures.	2/13/2023 2:40 PM
116	Stoney Brook park pond needs to be redug out and restocked.	2/13/2023 1:46 PM
117	Don't build in a flood plain	2/13/2023 10:33 AM
118	Not enough knowledge on the subject to comment, but anything that could impact water quality is concerning.	2/11/2023 3:55 PM
119	has never been a known issue where I live	2/10/2023 4:49 PM
120	We're flooded every year.	2/10/2023 4:41 PM
121	For #3, common sense approach. No direct dumping and limit town and farm runoff.	2/10/2023 4:29 PM
122	Flooding that overflows septics & water ways is a problem	2/10/2023 4:24 PM
123	The creek above the dam gets plugged & floods.	2/10/2023 4:00 PM
124	How will you attract businesses/people to the Hamlet if it is periodically flooded from the creek.	2/10/2023 3:36 PM
125	Since new homes built acrss from me my basement is most always wet & flood.	2/10/2023 3:28 PM
126	The corner of Rts 15A & 251 and the adjacent homes flood in rainstorms - this needs to be rectified.	2/10/2023 3:16 PM
127	The town's septic systems over time fail and need to be repaired and kept up to date to today's standards to prevent pollution of our waterways. Farm and construction sites need to treat storm water runoff to prevent siltation and sediment from entering our water ways.	2/5/2023 5:34 PM
128	No sewers means all waste goes into the ground. More people means more waste into the groundwater. It's logical that this has an effect on the environment. More single family homes with nice yards require grading that effects runoff. Big pretty lawns that replace natural abandoned fields usually need chemicals to make them look nice. Water and chemicals run down hill to the rivers. Parking lots or other hard surfaces make the water not flow into the ground as fast (lack of water for the aquifers) and the run off gets into the rivers and streams quicker leading to possible flash flooding.	2/4/2023 6:26 PM
129	This survey seems to hint at increased development in Rush. I would not want development if it negatively impacted local nature, like bodies of water around town.	2/3/2023 10:34 AM
130	They are a great resource for the town for boating, fishing or just walking along. In fact it would be nice if the Genesee river quality was improved	1/30/2023 7:00 PM
131	I have concern for all our precious water bodies, but no specific issues at this time. Development that adds more impervious surfaces (roofs, parking lots, etc.) must include mitigation to protect property from flood risk and these bodies of water from pollution.	1/30/2023 5:23 PM
132	I'm not aware of any water quality issues in Honeoye Creek or the Genesee River that the town can impact.	1/30/2023 1:40 PM
133	Had a wet yard from Water Authority pipe sox broken for years and they kept denying it.	1/30/2023 1:34 PM
134	It would be nice to be able to swim in the creek	1/29/2023 6:22 PM
135	Should I be? Water quality is important to me.	1/28/2023 7:19 PM
136	preservation of clean water	1/28/2023 5:36 PM
137	I am always concerned about water quality - especially as it affect wildlife in the watershed. The Genesee River seems to me to be especially concerning	1/28/2023 12:07 PM
138	We should always be concerned about water quality. The Honeoye Creek feeds into the Genesee River which feeds into Lake Ontario!	1/28/2023 11:44 AM
139	What is the water quality of Honeoye Creek and the Genesee River?	1/27/2023 6:44 PM

140	Hamlet and possible septic leaching into the creek.	1/27/2023 2:52 PM
141	I'm concerned about water quality everywhere!	1/27/2023 2:30 PM
142	Our property is on the creek. The creek is an asset with lots of wildlife and paddling opportunities. The dam must be maintained	1/27/2023 11:33 AM
143	In going with the rural character of the area, I would prefer keeping waters as pristine as possible for fish and wildlife	1/27/2023 9:10 AM
144	we should do what we can to keep toxins out	1/26/2023 9:33 PM
145	We should work to preserve water quality in our sphere to encourage the world around us to do the same.	1/26/2023 3:09 PM
146	Both environmentally and recreationally. (See next question.)	1/26/2023 9:26 AM
147	I think the water is mostly in good condition	1/25/2023 6:17 PM
148	As long as they stay the same , I'm no concerned.	1/25/2023 12:42 PM
149	water quality affects wildlife/ecosystem	1/25/2023 12:01 PM
150	I would like to know that these water bodies are not being polluted either by persons or businesses.	1/25/2023 11:57 AM
151	Clean water is important. Should encourage diverse wildlife as well.	1/25/2023 11:50 AM
152	i would like them to be less polluted	1/25/2023 10:56 AM
153	Some homes and businesses run their outflow directly to these sources of water. Agricultural run-off constitutes a serious source of contamination of river and ground water.	1/25/2023 10:38 AM
154	The water quality seems fine I just wish there was better shore access fishing by putting all those huge boulders with rebar sticking out of them by the Rush dam it made it dangerous and hard to fish there and the drain tunnel needs to be fixed before it collapses it's crumbling	1/24/2023 3:40 PM
155	Waterbody protection should be, in part, a municipal responsibility.	1/24/2023 1:00 PM
156	we want to keep all our water sources as clean as possible. Although it is not used for a drinking source, water sports and fishing are important	1/24/2023 12:21 PM
157	I don't know what the quality is now	1/24/2023 12:14 PM
158	There is no problem with the QUALITY of the water	1/24/2023 10:51 AM
159	The quality of water flowing in Honeoye creek is suspect.	1/23/2023 8:39 PM
160	If it pertains to runoff and pollution that would harm animals and people	1/23/2023 7:35 PM
161	With the exception of road salt there should be zero contaminants entering water ways.	1/23/2023 7:19 PM
162	I believe we should do whatever we can to protect the waterways and help keep them clean.	1/23/2023 4:56 PM
163	Maintaining pollution free waterways should be one of our highest priorities	1/23/2023 2:31 PM
164	I'm concerned but the DEC and EPA already have regulations in place that should protect our creeks and rivers.	1/23/2023 2:14 PM
165	While I do not currently have concerns, water quality is a critical asset that cannot be replaced. Therefore it should remain a priority for the town in both overall maintenance and preventative care for all future planning re: town developments.	1/23/2023 7:52 AM
166	Want to keep it as clean as possible	1/20/2023 6:25 PM

30	Pollution has impaired our water bodies. How do we address that pesticide and herbicides and fertilizers are nonpoint sources of fun off pollution. I would like the town to address ways to keep the farm pollutants out of the river and creek. Also the spraying on bridges goes directly into the water bodies. (streams and tributaries). We can work together to hep the creek and the river. Perhaps add more buffers. We we willing to try to do things to help? This becomes drinking water for many and habitat for others. We care about and appreciate the farmers. Can we work together with them on this?	3/1/2023 1:53 PM

119	Trail maintenance Lehigh Valley.	3/1/2023 3:58 PM
120	This all depends on money we have?? Tennis court, Basketball courts, bike trails maintained.	3/1/2023 3:54 PM
121	A basketball court; a tennis court	3/1/2023 2:58 PM
122	Lighting improvements; filling in low areas or walking areas	3/1/2023 2:50 PM
123	Find and implement ways to protect overall river quality. Please invest a little money into our parks and trails. These are among Rush's greatest assets. Stoney Brook Park is an asset. I see people there all the item. The sough side appears to be too wet to install a recreation field. I would recommend planting trees in that field so that the town does nt have to continue mowing it. It does not appear to be used because of the wet. Plant trees. It will be beautiful. Maybe then you could install a short trail. Also, thank you for the park at the river	3/1/2023 1:53 PM
124	Porta pottys	2/28/2023 5:16 PM
125	1 - 4 Only three of the "parks" listed to the left are shown on the map. Of those three, Stoney Brook needs improvement...it looks like it would be a wonderful place to visit, except it is not maintained well, the facilities are falling apart, and the pond is a mess in the summer. Is there a "Town Park" on Golah Road, as shown on the map or is it just a piece of town property? The "Public Fishing Area" shown on the map is a NY State DEC Access point that has fallen into disuse ... what would our comprehensive plan propose for areas like this that the town doesn't own or control? As well, Oak Openings, the Genesee River and Honeoye Creek are controlled/regulated/overseen by the State of New York, not the Town of Rush, with the water bodies now having Federal oversight thrown in. If our "comprehensive planners" are thinking	2/28/2023 4:17 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

about very specific projects like these, perhaps they should also be thinking about how revenues will be generated to make them happen. For instance, a swimming pool would be a very costly proposition in terms of construction, staffing, maintenance and liability. Besides, it would only be useable 2 or 3 months a year.

126	Rush Riverside and 100 Acres continue to develop trails & greenery.	2/28/2023 4:06 PM
127	More trees and trail improvements at 100 Acres and Rush Riverside.	2/28/2023 3:57 PM
128	Continued improvement in trails & tree planting in the Hundred Acres.	2/28/2023 3:54 PM
129	Canoe/kayak launch beside L.V.T. at park behind Post Office. Lehigh Valley Trail going east from Rush Town has frequent muddy spots and water -> some stones/mulch something to help drainage.	2/28/2023 3:40 PM
130	On Lehigh Valley these are area that need better drainage for walking and biking. We use often.	2/28/2023 3:21 PM
131	They look nice. The highway dept are doing a good job.	2/28/2023 3:11 PM
132	Veteran's Memorial: I like to visit but there are no recreation opportunities that I am aware of. Not on map. Rush Riverside: What is this used for? Hundred Acres: What is this used for? Oak Openings: Not on map. What is this? Build a recreation center.	2/28/2023 2:48 PM
133	Better access	2/28/2023 2:29 PM
134	I would like the larger pieces of cinder removed (raked off to the side) of the trails for better bicycling and walking with light shoes.	2/28/2023 2:17 PM
135	Fresh water, seating - grill for cooking. Restroom?	2/28/2023 2:08 PM
136	Although I do not use many of the parks for recreational purposes I believe they are very important to the community.	2/28/2023 1:53 PM
137	I would like to see the Lehigh Valley Trail resurfaced. There are a number of sections that are not passable during certain times of the year due to water/mud. The parking lot at River Rd additionally has lot of water collecting pot holes.	2/25/2023 1:15 PM
138	Some playground equipment at Stoney Brook park would be nice	2/24/2023 2:39 PM
139	None of the above we travel to Letchworth, Mendon Pond, Stoney Brook, Watkind Glen	2/24/2023 2:17 PM
140	Maintenance pond at Stoney Brook needs to be kept up	2/24/2023 2:03 PM
141	Keep them clean	2/24/2023 1:54 PM
142	Would like the Lehigh Valley Trail better maintained	2/24/2023 1:27 PM
143	Proper maintenance -mowing snow removal for access ways	2/24/2023 1:12 PM
144	Perhaps solar lighting at park place	2/24/2023 12:24 PM
145	Signage at the Veterans Park! Long overdue.	2/24/2023 12:17 PM
146	Lehigh Valley Trail is too wet to go very far. Needs more gravel on trail or grading	2/24/2023 12:09 PM

153	More creek access for	2/23/2023 2:00 PM
154	Get a hold of Monroe County Parks and get the Lehigh Valley Trail upgraded	2/23/2023 11:14 AM
155	Just that they are protected and maintained	2/23/2023 11:06 AM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

156	More family playgrounds and spaces	2/23/2023 12:35 AM
157	Public relations... I don't know what 4 of these even are? Please promote their use and value... feature 2 of them each month in the Town newsletter, for example.	2/22/2023 9:10 PM
158	Doggy bags & disposal sites provided	2/22/2023 8:20 PM
159	N/A	2/22/2023 3:41 PM
160	need more pavilions & a recreation center, like other towns have. (or - share a rec center with another town)	2/22/2023 3:32 PM
161	Oak Openings is a state DEC park = again not sure what these have to do with the Comp. Plan Update - we need to protect & increase parks	2/22/2023 3:24 PM
162	They all seem nice. I think they're all valuable. I've just never used a single one. Would need to go see them & get back to you. Would need to go see them & get back to you. Bathrooms are always a plus, though. If there aren't bathrooms, that should be fixed. You know, even if you out in pit toilets "like HFL's Monroe Village Park", at any outdoor rec area, it's amazing what you can accomplish with an electrical run for a times motion sensor for LED lighting and radiant heating elements. Year-round utility.	2/22/2023 2:56 PM
163	Vet. Mem. Park: more tress/shrubs. wildflowers, places to sit. Stoney Brook: more athletic equip like bases & pitcher's mound. 100 Acres: more natural setting with simple trail & wetlands, educational signs. Creek & River: more recreation opportunities, paddle boarding, kayaks, guides.	2/22/2023 2:27 PM
164	I haven't used the above	2/22/2023 2:21 PM

167	Less people and bike riders on trails	2/22/2023 1:07 PM
168	My family and I have kayaks and would like to kayak in the river and the creek.	2/22/2023 12:31 PM
169	Definitively more maintenance & STRICT enforcements of no motor vehicles.	2/22/2023 12:10 PM
170	Clear Honeoye Creek of debris so we can kayak.	2/22/2023 11:45 AM
171	Continue low impact development and modernization, a needed.	2/22/2023 11:32 AM
172	The playground needs some TLC and some shade. There need to be sidewalks and crosswalks to connect Veterans Memorial Park and Town Hall Park besides just the one at the Creekside. The Lehigh Valley trail needs upkeep. I wish there was a way to utilize the buildings at the Riverside Refuge (they are actually quite charming and could have many community uses). In general I wish there were more places to take strollers/wagons/tricycles and kids - most young families (ours included) go to places like Honeoye Falls because our own town is not very family friendly or walkable.	2/21/2023 10:10 PM
173	Signage, parking, maintenance (Lehigh trail often becomes flooded, and unsafe when path is on a hill)	2/21/2023 9:32 PM
174	Firemen's Field is privately owned! Picnic tables, benches.	2/21/2023 5:05 PM
175	Re Fireman's Field: You realize that is private property, not public? You listed the Fireman's Field that is NOT public property and requires permit to use. Benches in Veteran's Park & along Lehigh Trail.	2/21/2023 5:01 PM
176	Public trash and recycling receptacles to reduce littering opportunities would be appreciated.	2/21/2023 4:47 PM

building/repitory for historical information/youth center. Make a comfortable space for residents to socialize (until some businesses can be attracted that do the same). Think, "a library like environment where you can talk louder than a library and drink coffee and hang out." Fireman's Field - Convert some of it into retail space. Not an ugly strip mall, but some form of commercial use. It's a huge lawn used once a year (or so) for a carnival. Not much else can be done with it without investment. Take the money from the sale and fix up other open areas. Lehigh Vally Trail - Work with Scottsville and Honeoye Falls to make the trail more of an attraction. Encourage a bike rental business and shutttles between the towns (Drive to Scottsville, rent a bike, stop in Rush for a Beer or Ice Cream or Pizza or whatever, ride to Honeoye Falls, have dinner, return the bike and get a ride back to your car in Scottsville.) Like this. Lots of planning and work needed to make something like this work. Create the infrastructure that supports it and encourage private businesses to come. (Of course you need public bathrooms for this kind of thing, which probably means a sewer alongside the creek...) Enough good ideas from me for today.

310	The confluence of the Lehigh Trail, Honeoye Creek, various local parks, easy parking and EV charging, and local businesses in the hamlet is an underutilized opportunity. That section of the Lehigh Trail is already popular but I think some additional development and connection that ties all of these together, especially with the waterfront, could really make this area a destination for recreation and local business.	2/3/2023 9:00 PM

1	Put more effort in the trails! It will promote more trail use!	3/20/2023 2:26 PM
2	I'm in favor of summer recreational program for children, day camp style, which would include transportation to swimming opportunities weekdays for a limited number of weeks in the summer...outside of Rush	3/20/2023 2:03 PM
3	Keeping our town beautiful clean and safe is my priority	3/20/2023 1:22 PM
4	Ice skating rink would be nice	3/17/2023 3:24 PM
5	A large senior citizens center	3/17/2023 3:16 PM
6	rec center with kitchen facility with indoor/outdoor access	3/16/2023 2:30 PM
7	That would be nice	3/16/2023 1:55 PM
8	A floating canoe/kayak platform would be nice on the river	3/15/2023 11:15 AM
9	If we had a community center I would welcome indoor pickleball courts	3/14/2023 10:27 AM
10	Too expensive to build and maintain	3/14/2023 9:09 AM
11	I feel that currently available locations should be utilized (i.e. schools/library) rather than building new facilities - better utilize the space we already have	3/13/2023 10:55 AM
12	Lived in Ruth 74 years - it is an embarrassment to see what it has become	3/10/2023 1:12 PM
13	Keep improvements simple to keep taxes done	3/10/2023 10:49 AM
14	Multi sport/multi use fields/courts No need to choose 1 or another	3/10/2023 8:25 AM
15	Good idea Love living here Love the library Would like a local grocery store	3/9/2023 3:18 PM
16	People should own and maintain their own equipment why should tax payers pay for equipment they don't use	3/9/2023 1:26 PM
17	The town should provide clean safe access to the water and community center. Heated pool for learning and swim and dive teams. No big slides	3/9/2023 1:06 PM
18	Don't build what you can't support.	3/9/2023 10:50 AM
19	Don't construct things you can't maintain or justify	3/9/2023 10:45 AM
20	Splash pad	3/9/2023 9:39 AM
21	More basketball courts, independent of tennis and pickleball	3/9/2023 8:28 AM
22	What about opening trails to peaceful, law abiding snowmobilers - isn't this country?	3/8/2023 3:29 PM
23	While a public swimming pool would be lovely, the costs associated with building, maintaining and insurance would be prohibitive.	3/8/2023 2:48 PM
24	A community swimming area would be wonderful	3/8/2023 1:21 PM
25	Above the dam in the hamlet. Community Center. Tear down 1911 rush Scottsville Road and build an attractive Community Center. It would be a better use of money and would bring people into the Hamlet and Town Hall/Library	3/7/2023 12:36 PM
26	Taxes are high enough - don't need any extra in this "farming community" leave it alone!	3/7/2023 11:17 AM
27	Let's develop and maintain trails, creek access Genesee Access!!! Pickleball, tennis swimming pool likely to be expensive!! Use what have for Community Center.	3/7/2023 9:52 AM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

28	8. Parks, Trails, & Recreation - I have not used any of the listed areas in the last 5 years. Once you no longer have children in the house there is no need. You ask what improvements - most of the listed areas (Genesee River, Honeoye Creek, Oak Openings, Fireman's Field, Lehigh Valley Trail) do not belong to the Town of Rush. Why would we spend taxpayer dollars on areas that are not ours? And to even contemplate a swimming pool we'd need SEWERS!	3/7/2023 9:36 AM
29	Kids would enjoy a pool	3/6/2023 3:00 PM
30	No pols - too high maintenance costs	3/6/2023 12:55 PM
31	NO swimming pool. Keep costs down	3/6/2023 11:45 AM
32	re recreational equipment: bring your own Swimming & things need to rent by the town are costly. To few to serve at this time.	3/3/2023 3:46 PM
33	Do not want taxes raised to accomplish these enhancements.	3/3/2023 3:06 PM
34	We seem to have enough space for group activities. I am at an age where these active choices are not an option.	3/3/2023 2:25 PM
35	Make the director of recreation position full time with benefits - It's a big, busy, Job!	3/3/2023 2:18 PM
36	water park	3/3/2023 1:59 PM
37	Environmental awareness activities nature walks, etc.	3/3/2023 11:33 AM
38	Having guided nature walks	3/3/2023 11:11 AM
39	While building may be covered by grants, the long term maintenance and upkeep usually costs taxpayers	3/3/2023 10:48 AM
40	Spray park	3/3/2023 8:10 AM
41	Spray park for kids	3/3/2023 8:05 AM
42	Keep expenses down as we are close to other opportunities for swimming, boat launch. Have enough small meeting rooms within town already - churches, fire house, pavilion, library. Could have pickleball/tennis court like Martin Rd park has, where nets can be lowered or raised.	3/2/2023 4:47 PM
43	A public swimming pool would be wonderful!	3/2/2023 1:01 PM
44	Lets get the town established on a sound footing and take it from there	3/2/2023 11:48 AM
45	More pickleball courts please!! Indoor would be GREAT!!	3/2/2023 11:29 AM
46	-Additional children's activities. -Would like additional community events, times and spaces to work @ during the day: ie. library rooms, cafes, etc.	3/2/2023 11:10 AM
47	Re Community Center: Already have it - to me. Re Recreational Equipment: Not our current job. Re: Boat Launch: at 100 Acres! See the kayak launches on the river in Rochester. Outstanding accessibility and paid for = NYS funds! Maintain through schools.	3/2/2023 10:13 AM
48	not sure what pickleball is	3/1/2023 9:11 PM
49	Re Meeting rooms: Already have at Library and building out back. Re pool: Big waste of \$	3/1/2023 9:02 PM
50	There is already a community room behind library. Many tennis courts & pools available in neighboring towns (Henrietta, Honeoye Falls) so we don't need.	3/1/2023 8:55 PM
51	Table tennis @ the recreation facilities very important	3/1/2023 8:24 PM
52	Need better water quality in order for me to be interested in water sports in town.	3/1/2023 8:21 PM
53	I guess if one tennis court area w/ pickleball was built on Town Hall area that would be fun.	3/1/2023 5:26 PM
54	I would like sand "?" volleyball courts	3/1/2023 4:43 PM
55	Re Boat Launch: Genesee River Re Pool: We need indoor pool All ages benefit from a pool - we need one!! Need programs for students year round.	3/1/2023 4:36 PM
56	So many other options in nearby towns.	3/1/2023 4:19 PM
57	Many people have swimming pool, that have them, high cost to maintain pools and insurance	3/1/2023 3:54 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

cost. Something with tennis court, basketball courts gets people out doing things and kids need it than videogames, as kid it was, I looked ofr. Keep kids out trouble.

58	Make the swimming pool available to all citizens with lifeguards	3/1/2023 2:58 PM
59	Please build a boat launch in town and one at the river - Cox Ferry site. When planning for town meeting space please keep in mind UTILIZATION and DUPLICATION. We do not need another town meeting space - we have access to other community buildings. Rush Methodist Church is a great place/resource to all in Rush. For a small fee we can use and support the church, Great space there	3/1/2023 1:53 PM
60	Community center large enough for Sr citizens & larger groups.	2/28/2023 4:55 PM
61	We need sewers. We need the town to not scare away new businesses.	2/28/2023 4:35 PM
62	Pickleball seems more popular now. people prefer to buy their own (equipment). Maybe access to loaner bikes at Town Hall for access to bike loop if people do not have bikes. No real valid place to swim. focus on canoe/kayak launch.	2/28/2023 3:40 PM
63	We own our own equipment but might be nice to have a few items available for others who don't. Contact Rush United Meth church who have loaner kayaks.	2/28/2023 3:21 PM
64	Boat launch: Where?	2/28/2023 3:02 PM
65	A recreation center with a walking track, BB court/multipurpose gym, pool, weightroom, meeting rooms would be great.	2/28/2023 2:48 PM
66	Lap swimming pool would be great.	2/28/2023 2:17 PM
67	Important to the character of the community but not important to me personally.	2/28/2023 1:53 PM
68	Where is there a boat launch?	2/24/2023 2:39 PM
69	Lower the Town/County taxes	2/24/2023 2:17 PM
70	Swimming pool upkeep and maintenance can be very expensive.	2/24/2023 1:42 PM
71	Keep what we have working all will be good.	2/24/2023 11:31 AM
72	Although I like a number of these possible additions, anything we add will not only need to be built but maintained. We need to be very conscious of taking on more debt and financial responsibilities at a time when our economy on the whole is shrinking.	2/23/2023 9:57 PM
73	Bike trail upgrade with a stopover with/water & rest rooms	2/23/2023 11:14 AM
74	All of these are available ear us. So other than community center none of it seems crucial	2/23/2023 11:06 AM
75	Bldgs and services/transportation for seniors.	2/22/2023 9:10 PM
76	Adding these amenities only seems to make sense if we are also going to expand and diversify the population base of the town (by expanding & diversifying housing options)	2/22/2023 8:20 PM
77	Add dog poop bags / trash cans on parks and trails.	2/22/2023 8:10 PM
78	Why rent out kayaks? There is no place to kayak without waterfalls, shallow water, and rocks. Too much liability exposure.	2/22/2023 3:32 PM
79	This question is not complete - I may personally want some of these improvements but I may not be willing to increase my taxes to pay for them - very confusing questions that have little to do with planning land use.	2/22/2023 3:24 PM
80	Lehigh V. Trail & Oak Openings are good as they are. R Snowshoes, etc: I'd like to see a rental business in town but don't feel this is the Town's responsibility.	2/22/2023 2:27 PM
81	Maintain basketball courts	2/22/2023 2:18 PM
82	Do not raise taxes for recreation purposes.	2/22/2023 1:59 PM
83	Please leave Rush in it's integrity We pay enough in taxes to eliminate more free places for others to ruin. KEEP OUT BIG BUSINESS	2/22/2023 1:07 PM
84	Tennis - yes	2/22/2023 11:45 AM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

85	A mixed use court (s) at Town Hall Park would be nice	2/22/2023 11:32 AM
86	Splash park, MAYBE - a pool would be ridiculous. That money would be better spent on an indoor recreation center. We use Henrietta's frequently - it would be nice if there was some sort of partnership b/w Henrietta and Rush with regards to recreation fees and sign up schedules. A lot of programs fill up before non-Henrietta residents are allowed to register, and Rush has no alternative of its own.	2/21/2023 10:10 PM
87	Why do you say "small" instead of just a community center? There's no option to select a "large" community center. We need a community center - whether it's small or not. Didn't even know we HAD a boat launch! Guess it needs to be better lol Recreational equipment and swimming area would be marvelous in the hamlet! Great attraction for residents	2/21/2023 9:32 PM
88	I grew up in this town. It needs to grow & offer more. There is nothing to keep the younger generation here. My mother thought it was backwards back in the 1960s. She was right in some ways. It is stagnant.	2/21/2023 5:01 PM
89	keep the tax base low	2/21/2023 4:21 PM
90	It would be nice if Rush residents had use of Henrietta Rec Center at same cost as Henrietta residents.	2/21/2023 4:11 PM
91	Many of these examples are either not needed or available in nearby towns - Every town does not need every type of facility	2/21/2023 3:34 PM
92	One Hundred Acres helps protect the Genesee River. We need to support this park and Rush Riverside Refuge -- other towns float bonds to try to buy places like this! Nice to see horses at BOCES. Also, a swimming pool is a bad idea -- expensive to build and maintain, too many liabilities. We have a pool at Sperry. We don't need more meeting rooms, we have them.	2/20/2023 6:04 PM
93	Close parks & schools available for these activities. We need LOWERED taxes! If not, we will be moving from Rush ("sad face")!	2/20/2023 3:10 PM
94	All of these questions have nothing to do with the Comp Plan - all of these amenities come with growth and development - they are not up for vote for current residents.	2/20/2023 2:47 PM
95	A swimming pool is a nice to have not a must have. It's a lot to maintain for a small community.	2/19/2023 5:56 PM
96	I would like to be able to launch my kayak via a ramp ontp Rush creeks.	2/17/2023 5:20 PM
97	Didn't use tennis courts. Too much upkeep to have a pool.	2/17/2023 4:31 PM
98	Rental of equipment makes sense. It would be nice to have a real baseball field	2/17/2023 2:51 PM
99	Keep Rush a farming community. No large scale housing. Trees and flowers.	2/17/2023 9:35 AM
100	Area to walk dogs off-leash.	2/17/2023 9:00 AM
101	Already have a pavilion	2/17/2023 8:56 AM
102	Making equipment available is nice idea but I would like to see wider funding ("County, State)	2/17/2023 8:13 AM
103	Would like to have a bigger community center available for indoor recreation and walking. There's no space available for residents during the colder months & rainy weather. We need more space that's available for both children & adults. We could meet other residents & get to know *others in our community. This used to be a "tight-knit" community. -Not as much now. - Sad.	2/16/2023 4:06 PM
104	I think we need a accessible boat launch above the dam for small boats and canoes & kayaks	2/16/2023 3:19 PM
105	I'm retired and would like to see more community classes like yoga, etc. I don't want to have to drive into Rush schools.	2/16/2023 3:14 PM
106	Canoe launch right north of trailhead parking area on Lehigh St ("Rush Station Parking")	2/16/2023 3:04 PM
107	Rush lost it's community feel years ago - there is better service for all these aspects in neighboring towns. Why try now to reclaim lost opportunity?	2/16/2023 2:33 PM
108	There are plenty of courts around. Pickleball is very loud. A small boat launch would be amazing	2/16/2023 12:59 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

109	Due to my age (87) further sports activities are of no use to me. We do need small stores, shops, a bank, small grocery store with summer treats, cones and shakes.	2/16/2023 11:21 AM
110	indoor gym & turf field	2/16/2023 10:59 AM
111	boat launch - on the Genessee River	2/16/2023 10:54 AM
112	An indoor gym and turf field	2/16/2023 10:32 AM
113	Cost & safety - let them swim at school.	2/16/2023 10:29 AM
114	-Build wider shoulders on rural roads for walking safety; -Enforce speed limits; -Limit trucking on residential roads.	2/16/2023 10:17 AM
115	It all comes down to cost & maintaining property cost. If more revenue comes in via business, it may be possible - no tax increase at this time.	2/16/2023 10:01 AM
116	What more could Wildwood offer?	2/16/2023 9:35 AM
117	Wild and undeveloped but accessible spaces are important.	2/15/2023 5:41 PM
118	Why are there no free meeting spaces available?	2/15/2023 1:47 PM
119	Ban motorized watercraft on Honeoye Creek. It has a negative impact on nesting waterfowl & shore birds.	2/15/2023 10:54 AM
120	It's important to keep all sporting activity places current	2/15/2023 8:42 AM
121	The pool in Henrietta is sufficient and easily accessible to Rush residents.	2/14/2023 6:18 PM
122	Consider the costs of these things vs # of people who will use them	2/14/2023 5:05 PM

127	Cost/benefit considerations- all ideas are fine, don't happen to apply to my own interests, which is fine - these are community assets.	2/14/2023 2:03 PM
128	Please consider a dog park for off-leash exercise; they're sorely lacking in the county and I often see dogs inappropriately being run off-leash in parks, rail trails, etc.	2/14/2023 1:15 PM
129	Honestly these are things that we do not value. That does not mean that we don't think that it is important to other community members & needed.	2/14/2023 12:10 PM
130	I love sports & outside activities, but I don't expect Rush to provide facilities. I would like Rush to work with Henrietta to make using their facilities & RH schools more available to Rush. We pay school taxes but use of school grounds prohibited. Henrietta Rec Center easy to use - maybe include Rush residents.	2/13/2023 5:09 PM
131	Boating can be dangerous especially in the Genessee River. Building shoulders on the roads for bike safety is important. E River Rd is particularly dangerous. My wife was almost injured by a giant truck there.	2/13/2023 3:49 PM

149	Most people have their own equipment	2/6/2023 12:50 PM
150	There are many tennis/pickle ball courts in the surrounding areas and at the schools. There are pools at the high school and at the Y and JCC. There are beaches on Lake Ontario and the Finger Lakes. Some areas of Honeoye Creek are suitable for swimming. We currently kayak on the creek, putting the kayaks in above the falls(near the kiosk and parking area for the Lehigh Valley trail) and paddle up stream for 45-60 minutes until it becomes too shallow. This requires hauling the boats up and down a steep, slippery slope. Below the falls is more prone to blockage(I've gone this way from my house and can only go 15 - 30 minutes at best). A boat launch above the falls would enable us to kayak more often.	2/5/2023 2:39 PM
151	I don't think that the Town (as it is now) should get involved in more funding for things like this. I think they should creat better infrastructure that encourages more businesses and people. When people want something, and there is the infrastructure to provide it, then the government should encourage it -- not fund it. The people who are residents who want it will find a way to get what they want. I don't think building more recreational facilities will endure more people to the town. I think the town needs to endure more people by providing infrastructure which provides prosperity (which leads to the revenue and resources to add or improve recreational facilitites.)	2/4/2023 6:26 PM
152	This town is not big enough for community pool and would be a waste of money	2/3/2023 9:46 AM
153	There are plenty of under-utilized tennis courts at Roth Sperry and Martin park	1/30/2023 7:00 PM
154	I grew up belonging to Thunder Ridge country club. It was affordable for everyone. Many memories. A pool in a community provides a way of exercising for all. Especially the elderly or those who can not do traditional exercise	1/29/2023 9:42 AM
155	Develop trails at the Hundred Acres.	1/28/2023 11:44 AM
156	Since the creek is already there, a boat launch could be a doable project. Having kayaks, snowshoes etc. available would be nice if there is a convenient place for distribution. Building and maintaining a swimming pool seems very expensive.	1/27/2023 2:30 PM
157	Added equipment etc. would only add to our tax bill. If you want to kayak-bring your own.	1/26/2023 12:00 PM
158	I wouldn't use the phrase "Somewhat important". Nice to have. I checked Pickleball above because I'd like to be able to play in Rush, but it's not practical currently.	1/26/2023 9:26 AM

36	When the Big M and Big Moo and library were located in town, we often walked or biked to town. However the speed of traffic on 251 makes it too dangerous anymore. No one goes the speed limit.	2/10/2023 3:16 PM
37	I drive my car	2/6/2023 12:31 PM
38	Again, I'm not a resident, but as a child I rode my bike everywhere in Rush. In my time living there during several months of the year in the last 5 years, I saw very few children or other using bikes as transportation. Some brave souls in spandex and helmets would ride down my road, but no one uses a bike as a form of transport. Cars move too quickly on the state roads (251-15A-15) and these are the roads leading to the hamlet (where the Lehigh Trail -- for bikes) runs. Without safety provisions or more sidewalks there will be few brave enough to ride the streets of Rush.	2/4/2023 6:26 PM

111	Limited destinations in Town. Where am I going... the 7-11? No public restrooms, unless you count the library... which is acceptable, if it's open.	2/22/2023 9:10 PM
112	There is no infrastructure in Town to support getting anywhere from anywhere else by any means other than a car. To use a park or trail, I have to drive my car to the trailhead/park and return to my car to return home. There is no concentration of destinations that would attract the same cohort of people within the very small area of the Hamlet that has sidewalks (eg. the people going to the Library and the Creekside or Montesano's are generally not the same people), so the little somewhat safe infrastructure that is present isn't really serving people. The sidewalk has no real separation from the road so I would hesitate walking with small children there. There also aren't wide enough shoulders/bikelanes available to make biking safe and accessible to a variety of ages/abilities.	2/22/2023 8:20 PM

Q38 3. What are your primary concerns related to traffic and transportation in the Town of Rush?

Answered: 256 Skipped: 684

#	RESPONSES	DATE
1	Cars go to fast in town -speed limit needs to be lowered to 30comin in all directions	3/20/2023 2:33 PM
2	Too much traffic in center of town, dangerous speeding around blind driveways	3/20/2023 12:54 PM

4	the high speed of the trucks	3/17/2023 2:24 PM
5	More sidewalks	3/16/2023 2:08 PM
6	They fly by at 60-70 mph all the time. Speedlimit is 35 mph	3/16/2023 1:55 PM
7	Must have a car for day-to-day, this is rural community	3/15/2023 3:07 PM
8	None - We are a pass thru community	3/15/2023 12:43 PM
9	Speed limits ignored. It's hard to even cross the road to get mail.	3/15/2023 11:26 AM
10	Amount of traffic and noise	3/14/2023 8:01 AM
11	Many of the main routes are hazardous in winter	3/13/2023 1:45 PM
12	Road conditions and crumbling infrastructure and topping roads with gravel	3/13/2023 10:55 AM
13	There really are limited transportation services in the town. Bus service is too infrequent and only hamlet has sidewalks. Too dangerous to walk on most roads.	3/13/2023 10:20 AM
14	Business that block sidewalks and require backing into/out of driveways/parking lots	3/10/2023 11:12 AM
15	None	3/10/2023 10:49 AM

20	No bike lane, speeding cars	3/8/2023 1:41 PM
21	Route is "speedway (West Henrietta Rd)"	3/7/2023 9:52 AM
22	Transportation - as I said in #2 - Rush is a Pass-through community. There would never be an extension of public transportation here, there are no destination businesses, and being a rural community, anything other than automobiles as a means of transportation is ridiculous.	3/7/2023 9:36 AM
23	Road conditions and pothole repair!!	3/6/2023 3:15 PM
24	Too many construction vehicles using back road shortcuts	3/6/2023 3:00 PM
25	Safety, speed limits	3/6/2023 2:34 PM
26	The speed limits are too high on residential roads No sidewalks available,	3/6/2023 2:05 PM
27	High speed limits in residential areas 55 mph 45s are too common	3/6/2023 1:54 PM
28	Lack of sidewalks and crosswalks	3/6/2023 1:31 PM
29	There's already too much traffic, we don't need more houses or businesses.	3/3/2023 4:16 PM
30	lack of sidewalk	3/3/2023 4:11 PM

My wife has been in contact with the NY State Department of Transportation regarding reducing the speed on that stretch just south of the hamlet but they stated that reducing the speed would only cause more rage driving and people to speed more. An easement to the trail along Honeoye Creek would be amazing to allow some residents to quickly cross 15A and then be on a secluded trail down in to town and possibly over to Honeoye Falls - eg. Erie Canal Trail.	2/23/2023 9:57 PM

1	Keep large solar developments out of Rush. it would be nice to have Tim Hortons or small business come to town.	3/20/2023 3:25 PM
2	Lower taxes hold more community events	3/20/2023 2:40 PM
3	No large big box store businesses - small independently owned - no commercial solar farms are not nice to look at and no information to residents as to who it benefits or owns them The rural/ country feel ad space is why we moved ere - we can drive 5 minutes for whatever we need - less cars & traffic the better	3/20/2023 2:33 PM
4	Let's get Greenlight internet; Spectrum sucks! Prioritize and have integrity about it being a farming community Upgrade the Fire Dept firehouse - its old and ugly and need updating -looks its the 80's /90's	3/20/2023 2:26 PM
5	Do something about the old market property at the 4 corners. We could use a grocery/hardware store there.	3/20/2023 1:59 PM
6	Rush is governed by people that don't care about the rest of us - do everything they can to stop development (Blain property) Rush is not going to turn into Henrietta not gonna happen. The four coiners s horrible you have a vacant lot (for many years) that is just getting wine in HF People spend their own money for years to block Dunkin Donuts then when it got built those people all go there - things need to be more fair!	3/20/2023 1:33 PM
7	I have one, a bit one, there is a spot on E River Rd and Rush, West Rush Rd that is 30/35 mile speed limit. Many homeowner walk, run and bike this area. However majority of vehicles do not slow down on E River Rd. The area has become too dangerous to continue walking dogs and running in the shoulder. Please please do something and enforce the speed limit. Thank you.	3/20/2023 1:22 PM
8	Sad to see the deterioration of the grocery store business. Having it was a treasure to many. Small business in town within walking would be beneficial to the town of a plan to attract was well worked out. Rush is a "drive through" town. it needs something for people to "stop" at. When we would take our car to ge inspected (at Danny Morse) but now at Poppas, there is always folks hanging around chatting -Small grocery w/sit down area deli or bakery. - Bakery/laundry mat or bakery/coffee shop/gift shop -Consignment shop - area by 390 (lad) but a bank? Something not creating heavy traffic Spa-small gym -Community pool -Small "auction" re-sale hub.	3/20/2023 1:12 PM
9	We enjoy the rural setting, but really need to fill spaces and businesses at Big M Site, such an eyesore! Also something at the corner of 15 & 251. Coffee shop? Gas and Grocery? These options are very limited on that side of town. It is ok to bring some "city" options to our town.	3/20/2023 1:01 PM
10	I moved to Rush specifically for its unique, small, rural character, & I sincerely hope that doesn't change. There is already increasing amounts of traffic funneling through the main town so adding to that would be detrimental to the Town's residents (with bus routes, apartments, etc.)	3/20/2023 12:54 PM
11	Keeping Rush as rural and wild as possible is the most important thing for me and other neighbors that I know. If development were to move in my family and I would be looking for a new place to live. Please preserve our beautiful town.	3/17/2023 3:21 PM
12	The largest concern that has drastically changed over the past 3-4 years is the increased travel of heavy gravel trucks NOTE this does NOT include Kavanuk Gravel or CWC Construction. The trucks are short cutting through side roads from Hansens gravel and the	3/17/2023 2:31 PM

other gravel bed newly opened. It makes it dangerous to walk and bike and destroys the peacefulness of property owners. These trucks should be forced to stay n main roads or taxes should be lowered.

13	Like t see a bike land on #6 Rd Like to have a supermarket in the town	3/17/2023 2:24 PM
14	Some of the homes in the hamlet need to be cleaned up. Perhaps the home owners need help. Possibly for a task force to help the. i.e. landscape work, painting minor stuff.	3/16/2023 2:30 PM
15	Bring small shops town friendly Make the Town somewhere people want to go to like the Town of Pittsford	3/16/2023 2:15 PM
16	Bring in small businesses similar to what they have in Pittsford. Develop along the Honeoye Creek	3/16/2023 2:08 PM
17	Would like to see the town do something with the "classroom" buildings in the Rush Riverside Refuge. Expand the parking at the Lehigh trail East River Road location. Provide high sped internet availability for residents.	3/16/2023 1:43 PM
18	Understanding there are no sewers, the largest area of land in Hamlet is Fireman's Field (no tax). Could this be somewhat developed ad shared for parking during the carnival.	3/16/2023 1:36 PM
19	I would benefit the Hamlet of Rush to have a fast food restaurant; coffee (with drive-through for both businesses)	3/16/2023 10:50 AM
20	Rush is very special place. Thank you for listening	3/15/2023 3:07 PM
21	The lure that Rush offers is that it is a quiet, peaceful safe green town with excellent emergency services. That is virtually crime-free. No changes should be considered which would ot retain that essential character. It is a great place to grow up. I know because I did grow up here. The inconvenience of having to drive a few miles to shop is small compared to the ease of living in such a peaceful place.	3/15/2023 2:59 PM
22	Though I love my Town. It is dying community. There are no accommodations and anyone who is interested in developing anything is crushed. 50 years ago there was a concern about development but those people are dying or dead and our town in its preset form is the by-product. People want something to keep the town alive.	3/15/2023 12:43 PM
23	It's very important to me to keep our centers of town at 251 and 15A As a senior I worry about the lack of a transportation service for those of us who may not be able to drive in our aged years. Pittsford has Elderberry Express something like that would help out.	3/15/2023 11:53 AM
24	Everyone's voice should be heard and not by shouting over someone else. If you live in Rush - love septic systems, the smell of animals and gardens that feed you. Respect your neighbors rights t their property and to dowith it what they want to do.	3/15/2023 11:34 AM
25	The quiet, rural feel of rush is why we are here. Major development would be very disappointing.	3/15/2023 10:37 AM
26	I would like a grocery store	3/14/2023 10:34 AM
27	Dredge the pond/improve depth at Stoney Brook Park pond. If it does improve, make it catch and release only/ Its such a nice little park, that pond needs help	3/14/2023 9:49 AM
28	I've lived in Rush for 11 years and am very surprised no small business of any kind has opened in the Hamlet. My only conclusion concerning this is the Town has discouraged possible businesses from so.	3/14/2023 9:09 AM
29	Any limited industrial development - while not desirable - should be contained to 15 South of the 390 exits and not contribute to an light or noise pollution with regard to any personal residences co-located to this development. Do not want to exit the expressway to see commercial or industrial development be the first introduction to the Town of Rush.	3/13/2023 1:45 PM
30	We need senior housing (apts or patio or town homes) so tat seniors and/or our young adults can remain in town after seeing larger homes or moving away from parents. Town is becoming a haven for the wealthy and unaffordable for those with more limited incomes. Why not have sewers in some part of town to accommodate multiple housing on a smaller scale? This issue had been debated since I came to town 50+ years ago. Do something!	3/13/2023 10:20 AM

35	Consistent enforcement of town code Have reasonable use of LI districts More reasonable policy for home occupations on large lots with protections for more residents. Mixed uses flexibility in hamlet for both commercial and multiple family dealings Recognize maintain Rush's identify with RR-2 or RR-3 (acres) districts in southern 1/2 Allow and regulate B&Bs and short term rentals, maybe in R-20 R-MD and large lots	3/10/2023 11:12 AM
36	Preserve our natural dark sky by limit blasting commercial lights after business hours or after 8:00 pm We love to see the stars, especially in winter. Preserve our dark sky!!	3/10/2023 10:58 AM
37	Keep the farmland and stay rural	3/10/2023 10:49 AM
38	I think the town needs to support more small business and access nothing seems to change in the hamlet of Rush and would be great to see a more developed small town	3/10/2023 10:43 AM
39	Please develop empty lot at intersection in Rush or at least clean it up and make it extra parking for events at the fireman's field (carnival, fall fest etc.)	3/10/2023 10:33 AM
40	Lowering taxes while preserving the Rush Ambulance is necessary. While planning and preparation is important their free ambulance provides the most benefit to residents.	3/10/2023 9:13 AM
41	Please - NO solar or wind	3/9/2023 3:23 PM
42	Sewers would be nice	3/9/2023 3:18 PM
43	Promote the installations of sewers and natural gas lines	3/9/2023 2:29 PM
44	Continue the right t form and limit the amount of building of homes/subdivision. Allow small business to utilize their space effectively in town.	3/9/2023 2:03 PM
45	Keep the Hamlet historic and parklike clean are services. Remove regulations for homesteaders. Encourage small businesses to provide strategic services. Use underdeveloped land responsibly by investing in public fruit trees, beehives and ecological stability. I support solar. IF any electric cost decreases over the next 1-3 years. Plant native plants along roads and edible food in parks.	3/9/2023 1:06 PM
46	Rush offers so little to the residents, it hardly worth mentioning. A library is its biggest draw. A gas station - more expensive than others. A pizza shop - for p/u only NO seating for families. A playground - residents with children or grown children have no use but our taxes are higher than other towns	3/9/2023 10:57 AM
47	Do something to improve our Town Center	3/9/2023 10:50 AM
48	Growing up and living here in Rush I have seen us loose a lot of business we used to have our Town Center is a mess with just about no services. One service station that looks like a junk yard, one convenience store. Gas station that gouge us. What a shame. Not all of our families can afford to stay. No affordable options for Housing.	3/9/2023 10:45 AM
49	Have been pleased with saving of the "House" in the hamlet, the upkeep of the trails and the administration the past several years.	3/9/2023 10:31 AM
50	I am concerned about al of the solar installations being proposed for the SW corridor of Rush. I feel that when all is completed, we will be located in the center of a solar city. Not good for my property value or rural way of life.	3/9/2023 10:06 AM
51	Allow a small grocery store to come to our town	3/9/2023 8:16 AM
52	Nowhere does the town board mention cost. In order to pay for the future you must have money. What's the median age in Rush? Many people today answering are older than? What age? How much longer will they be here to pay for everything you are spending now.	3/8/2023 3:29 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

53	Rush is a gem in Monroe County - maintaining the rural character of our town is of utmost importance therefore, I'm opposed to sewers. This would lead to overdevelopment. I'd also like to see small scale solar installations to address the energy needs of residents and town operations.	3/8/2023 2:48 PM
54	We need more business to assist with the tax base. But want any new construction to stay within the historical appearance at the Rush Township	3/8/2023 2:28 PM
55	What are the plans for solar. there is no indication that it exists! What happened to te finding of the solar committee	3/8/2023 2:13 PM
56	I feel that we should all be concerned with keeping our Town of Rush green - not cutting down destroying land and leaving open spaces. I am appalled that there is no place on the form to mention encouraging use of solar energy,. No way to mention financial support for our farmers. No asking about why people have availed themselves of solar energy - Town support for recycling? rules around use of pesticides.	3/8/2023 1:59 PM
57	I worry about my neighbors on Works Rd who can't use their well water. I wish I could get a gas line to my home on Phelps Rd Love the green spaces we have! Biggest wishes are public boat access to creek and pickleball court with lights	3/8/2023 1:41 PM
58	If you want to spend taxpayer money, please put sidewalks along Rt 251 from east and west of the intersection with Rt 15A - also extend sidewalks to cover Rt 15A north of the intersection with Rt 1251	3/8/2023 12:59 PM
59	Keep it agricultural with open land. Do not turn it into Henrietta with all the housing developments every where. A small convenience store like the old Big M and maybe a family restaurant in the hamlet could be nice	3/8/2023 12:34 PM
60	Preserving green space and open space in the Town of Rush is of paramount importance. We should also support, dedicate part of the town's budget to supporting pars such s Stoney Brook Park and the Hundred Acres Park.	3/8/2023 12:22 PM
61	To clarify comments made elsewhere in the survey. -Historic building - we should encourage preservation without making strict requirements/permitting as with the Nat Historic Register. It just discourages listing and is counter productive -Environmental values and concerns are of paramount importance to me, including preservation of green space and open space and support of Hundred Acres. Rush Riverside Refuge. We could have a grassland gird program (boblinks) with a farmer at Rush Riverside Refuge. I care about lowering greenhouse gases, light polluton & pesticide use by farmers.	3/8/2023 11:17 AM
62	Keep the rural feel but develop the industrial/commercial areas, create a "main street" feel (think Pittsford or College Town). Could also develop water front by Montesonos (like a Schoen Place in Pittsford)	3/7/2023 12:56 PM
63	Forget about scarring land with solar and wind farms.	3/7/2023 12:47 PM
64	Rush is a nice area to live not far from everything you need. It would be nice to have some businesses to offset the high taxes. The area of Rt 390 and Rt 15 would be an ideal area for this kind of development (from High Tech Drive to Fishell Rd). A nice community enter near the Ton hall would be nice in the future. Replace the 1911 building with a community center and use the money for that instead of trying to fix and bring that old building up to code	3/7/2023 12:36 PM
65	It is important to provide affordable housing for our youth and our senior citizens. Provide sewers for high tech drive and W Henrietta Rd from Henrietta Tow Line and the Honeoye Creek to support commercial and industrial development.	3/7/2023 11:45 AM
66	Need affordable housing for youth and senior citizens	3/7/2023 11:34 AM
67	The library is a fantastic resource for the people of Rush. A small market would be a welcome addition.	3/7/2023 11:23 AM
68	Need a nice grocery store in empty lot across from 7/11 - ugly center of town ruins it all! Close down that car lot/gas station across from town hall - ugly awful looking 4 corners in Rush won't change the problem of making Rush more attractive - Love the rural parts! No sidewalk, etc. hate how ugly 4 corners are - Town Hall looks out of place. It's nice but really shows how ugly the rest is.	3/7/2023 11:17 AM
69	Appreciate your excellent survey and important focus on community quality and interactions!	3/7/2023 10:49 AM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

(It's been a long time coming !!!!) Hats off to you Town Board Members!!!

70	This is a very good "first start" for future considerations. Hope it will stimulate discussions.	3/7/2023 9:52 AM
71	Rush needs to get a plan with clear direction and has to appreciate history without being constrained by it. We are not Pittsford or Henrietta and have a unique setting that has to be cultivated into something more that residents and visitors can both value.	3/6/2023 3:15 PM
72	Solar farms should not be allowed in our community. Besides the fact that they are unsightly, it unfair to your neighbors who have to look at them. They should be blocks 100% from view...not chain link fence with trees that will take 20 years to grow. I would move if I found out that one was being considered in my neighborhood	3/6/2023 2:52 PM
73	No one listens, the old people in this town balk at everything. If we dont change no young people will move in and the town will die. We have a 7-11, a pizza joint, a mechanic and a hairdresser in town. Far from a thriving town for sure.	3/6/2023 2:28 PM
74	We have nothing in town that we sue other than pizza place, garage and bar. Its an eyesore where the Big M used to be. We need more shops.	3/6/2023 2:21 PM
75	Most of the Town of Rush's priorities are very conservative and based on the older aging population. Rush will not be a thriving town of they do not recognize that they to be more appealing to bring in the younger generations and small businesses. The school district is fine, but truly need to do more to have young families move to the Town.	3/6/2023 2:05 PM
76	The town population is aging and the town caters to the older population. The town needs to accept more progressive development and plans to attract younger people to the Tow or t will face a continual dwindling tax base. Distribution facilities are common suggestion, but lack any high skill, well paying jobs. Manufacturing should b supported due to the opportunities it brings.	3/6/2023 1:54 PM
77	No solar farms! I would rather see housing in these areas. Additional residents would improve hamlet and allow for viable small businesses to thrive.	3/6/2023 1:16 PM
78	Keep us rural Minimize tax increases Please continue to support the Library	3/6/2023 12:55 PM
79	Keep Rush rural Don't raise taxes The Town is not responsible for my recreation. I would take advantage of a small grocery store in te hamlet	3/6/2023 11:45 AM
80	Rush is a great town just the way it is! That reminds me of the old adage "if it ain't broke don't fix it!" It is vital for the future f Rush that we keep the Town's rural character and preserve open space. Without these Rush would not be Rush.	3/6/2023 11:27 AM
81	I pay an obscene amount of taxes. In doing so I expect certain things. I want open spaces and farms, not any new development. If I wanted to pay lower taxes I would've bought a house somewhere else. We do NOT need any more houses, businesses, or community centers. And we dont need to cram any more crap over by the Town Hall and absolutely no patio homes or apartments.	3/3/2023 4:16 PM
82	We need to support the Rush Historical Society and their renovation of the 1911 House, because we need a physical site for our towns history that is accessible to the public.	3/3/2023 4:09 PM
83	Thanks for doing this. Use spaces for building the correct way. The moore proposal was over the top. Ludicrous big suggestions about massive rec hall. We can't live in the past but learn from it. Traffic is too fast, creating noise in town to enjoy Veterans park or cross the street. I attended almost every session & commented.	3/3/2023 3:46 PM
84	We need a grocery store	3/3/2023 3:27 PM
85	I believe some of these questions are worded to persuade some people to check specific items.	3/3/2023 3:24 PM
86	No to large scale solar hamlet could use improvement.	3/3/2023 3:13 PM
87	No large scale solar! Parts of the Hamlet are looking run down.	3/3/2023 3:10 PM
88	-Major concern - continued raising of property assessments -Would like to see property development at corner of East Henrietta Rd & 251 where old Big M used to be - it currently is an eye soar for the town.	3/3/2023 3:06 PM
89	Do not raise property assessment. Need to develop property at the north east corner of 15A & 251	3/3/2023 3:01 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

90	So far love it here! Public water/sewers would be nice. Also leaf pickup.	3/3/2023 2:58 PM
91	1. If the School at Industry is interested in divesting the property between the River and the RR tracks, the town should pursue it such that any deed does not have restrictions that lead to internal fights about farming/recreation as has happened with the BOCES property. Using that swath of land does not diminish ag as it is not used, has no residential occupation, etc. I don't think we need another park or forever wild designation. It does have a capped land fill. Supervisor Kusse has said it could be a solar installation and earn benefits for the town. 2. As the planning grant with Henrietta goes forward, we need to be mindful of the benefits of connecting various trails coming south from Henrietta along the River and connecting to the Genesee Greenway Trail using the bridge on Rt 251. 3. As previous Rush reports suggested years ago, perhaps we can put solar on town gov't roofs- especially the truck and equipment garages. Vehicles will become EV and as battery advances occur, powering town EVs from town roofs would be appropriate. Many thanks for the care taken in constructing this survey and the opportunity to add comments to more fully explain the quantitative responses.	3/3/2023 2:54 PM
92	I don't want to see the 'Henrietta' mentality of developing all open land for commercial or residential use, spread to Rush. Leave Rush as is.	3/3/2023 2:38 PM
93	My biggest concern is urban sprawl, and I'd like to see careful long-range planning and mindful zoning practices. Rush is a great community - peaceful and beautiful. I'm hoping it stays that way.	3/3/2023 2:31 PM
94	Rail Road back	3/3/2023 2:11 PM
95	Rail road back	3/3/2023 2:09 PM
96	Bringing water to those who do not have it. None of that mentioned in this survey. There has to be federal grants/loans available 2023 half of our town has no public water.	3/3/2023 1:58 PM
97	Deer crossing signs - from crest of 15A (north) pass the school -ancient deer trail - between Oliver's and Lipps	3/3/2023 1:55 PM
98	The vacant property in town across from the 7-11 could probably use a small strip 4 store mall. With the old fashioned fake front so it looks old west style.	3/3/2023 1:47 PM
99	Very upset with people who are related taking positions in the town. A recent situation was an individual "?" for years but was voted out (relatives).	3/3/2023 1:43 PM
100	A water district and solar would be great. Is there an update on the Lakeshore project Much nicer website!	3/3/2023 1:32 PM
101	Water district and solar. Thank you for the survey!	3/3/2023 11:47 AM
102	Very much dislike drones flying over our property. Not sure if this neighbors or governmental agencies flying over Heard a rumor that NYS was looking to taking over all local zoning activities - this is very concerning. Is there something our town can do to ensure that this does not happen???	3/3/2023 11:33 AM
103	I love living in Rush with all the open land and trees	3/3/2023 10:25 AM
104	NE corner of 15A/251 is an eyesore and detracts from the character of the hamlet. A small business such as a winery/brewery/ cidery tasting room run by an existing company such as Star "Cider (Canandaigua) or a country store - neither of which would need sewer connection - would fit in with the rural feeling of the hamlet	3/3/2023 9:19 AM
105	I went through same type of survey in Chili about 2006 developers wanted to buy land from The Father's House. Put in malls, subsidized housing and so on. That only invites crime!! Police came to hearing to comment and agree! DO NOT INVITE THIS into our town. Look at Henrietta, Greece, Irondequoit? Tell developers to get bent and leave Rush out of their desires!	3/3/2023 8:52 AM
106	1. Tear down 1911 corner house build a useful community center. 2. "Encourage large-scale solar	3/3/2023 8:15 AM

110	-Encourage investment by private business to increase tax revenue -Decrease tax burden for home owners - Do not let Sate take over farm land for use as solar farm.	3/2/2023 4:54 PM
111	Need paid EMT @ Fire Station. Not currently able to depend on getting prompt emergency medical care, needing to wait for mutual aid much of the time. Could be difference in life or death in many instances.	3/2/2023 4:47 PM
112	The fear of change because of sewer is mind boggling. Install the sewers, allow the town to grow or we become obsolete luddites. Town manning/mgmt is self serving & not helpful to the future. New rule - Must be under 62 to run! Town leadership is out of touch!!	3/2/2023 4:37 PM
113	Would like to see the hamlet become more established with small businesses, coffee shop, drug store, restaurant. Would like this town to be more than just a drive thru bedroom community. I believe the town needs to do more to support and promote these businesses when they do try to some here.	3/2/2023 4:26 PM
114	I'd like to keep Rush mainly residential, agricultural. Henrietta is minutes away for malls and big box stores. We don't need that. The rural character is why I moved here ad enjoy it here.	3/2/2023 3:15 PM
115	Southbound West Henrietta Rd is used as a drag strip during warmer weather. The speed limit of 55 at the merge, plus lack of radar enforcement, results in a dangerous stretch of road.	3/2/2023 12:26 PM
116	Town ofRush Comprehsiueve Plan 2023 Review Additional Information Spoiler Alert: I am 86 years old. I am a widower. I have lived in my home since moving in in 1973. I am retired from two careers (local industry and school bus driver for Rush-Henrietta CSD). I have been a member of the Rush Fire Department for 45 years. I served on two Town of Rush committees studying the need for senior citizen housing and one studying the future of the town hall. (The first housing study came to naught, because the then-supervisor opposed the idea and filed the report in his bottom drawer. The second because no land existed which met the criteria of the study). By way of background on the town, in the early 1970's a proposal was made to install sewers in the hamlet. The Federal government would fund 75% of the cost. The citizens turned down the proposal, because it would bring in "those people." At about the same time, the City ofRochster needed a location for a new landfill. The State of New York offered a site on unused property at the State School at Industry. As proven by the disaster that turned out to be, concerned citizens banded together to voice opposition. That resulted in creation of the RUSH Party- Rush United to Save our Heritage. This group attracted a considerable following and set the tone for governing the town for the next twenty-plus years - moving forward (if at all) looking backward. As a result, Rush has lacked a progressive vision, and progress has become a dirty word. In fact progress has leaped over Rush to take up residence in Honeoye Falls, Lima, Avon and East Avon. Fearing progress and change, successive administrations' handling local businesses has ranged between un-cooperative and hostile - Rick Dorschel, Duffy Restaurant Equipment, Townline Garage. Homeowners are forced to bear the brunt of the tax burden. A number of the "rural character" contingent have come to town with the expectation and objective of their environs forever remaining the way they were the day they moved in. This is a very unrealistic and, for the future of the town, dangerous view. The lack of sewers definitely hampers any hope of attracting new business in the hamlet - lot sizes are simply too small to accommodate leach fields of sufficient size. (Until forced by governmental authority, several house holders continued to direct their waste water into Honeoye Creek). This restriction includes barber and beauty shops, to specify size, but is particularly accute regarding development of the parcel formerly occupied by the Rush Big M. I would hope that this information could be considered in drafting the updated Master Plan in a way which allows the town to move forward in a positive direction. Wayne Burdett 2 Pine Tree Circle Rush, N. Y. 14543	3/2/2023 11:48 AM
117	I think a small amount of housing would be beneficial to help cut taxes. Farming is hard these days & if a family needs to sell land, they should have an option. I don't see where historical homes stick out, I am not sure where they are. Town also needs to stop fighting Dem vs Rep.	3/2/2023 11:29 AM
118	Thank you for sending this out to gather opinions & feedback! I would like to see Rush spend with new, small businesses and restaurant/cafe options. There is very little for a family to do in Rush, so we travel to Lima or HF often. Rush is run-down and could use a little TLC to make it the quaint/historic area people are proud of. Many younger families e moving in, so I hope enhancements can occur.	3/2/2023 11:10 AM

Don't build more. Update & use what is here.	3/2/2023 10:13 AM

125	It's shocking how high the taxes are in Rush. Seems like the farmers get agricultural tax benefits, and the other folks pay the majority, Small businesses bringing in revenue to the town could help with balance. Attracting businesses by adding sewers would be a small price for the tax payers in the long run.	3/1/2023 9:02 PM
126	*The is no "character" to the town of Rush - its basically farm land with old houses. *The Rush library is a shining star in this community. *Bringing small businesses to town won't change things drastically - for example, Dunkin Donuts in Honeoye Fall was a debate for years. Now its accepted and hasn't negatively impacted the town. Sewers would help small businesses come to Rush and survive. Something should be done with the eye sore parking lot (old Big M)	3/1/2023 8:55 PM
127	Business expansion similar to the village of Pittsford. environmental feel with priority of shops, restaurants, sporting events, Good use of water ways.	3/1/2023 8:28 PM
128	Develop the empty lot across the gas station with mom and pop convenience store.	3/1/2023 8:24 PM
129	I worry bringing in more shops & businesses would compete with what we already have. With Henrietta so close, I think developments would fail. I also want to keep our fertile farmable land intact and not put a bunch of houses or businesses on it. As climate change continues, our area will be very valuable for growing food and other agriculture.	3/1/2023 5:26 PM

131	-If you build it they will come! -No Biz- no reason to come here. -No grocery stores, restaurant worth visiting. -No attractions. -Love where I live but I have to travel to other suburbs or villages or towns to get other services - Pittsford, HF, Fairport? -Invest more into the community -No disrespect but the library is not our only focus. Expand what the residents need.	3/1/2023 4:55 PM

134	When we moved here 37 years ago we enjoyed having the Big M, Bocks & even a liquor store available instead of having to run to Henrietta all the time. Since then, stores in Honeoye Falls & Avon have filled the void. Rush has become a "pass through" town. Nice place to live but little reason to go "into town". Lack of town water has us considering moving elsewhere. Rush is basically a 1 intersection town w/ little room to expand for shops or even parking!	3/1/2023 4:19 PM

141	<p>am disappointed with the Rush Comprehensive Plan Survey. The survey appears to be short-sighted and agenda driven based on the current Town Board for a 5-year plan v. 20- year plan. My initial impression was the questions were swiped off the internet from some other town's survey. In some instances, the questions are too generalized or could have been incorporated into the detail questions. I would strongly suggest the planning committee review the Monroe County Comprehensive Plan https://www.monroecounty.gov/planforward-documents for long-term ideas and questions.</p> <p>1. Overall Land Use, Conservation and Development</p> <p>a. Keep the Town's rural character</p> <p>i. Why doesn't the town go back to the 1800's if they want rural character? Progress is the life blood of any municipality.</p> <p>b. Maintain the viability of agricultural operations in town</p> <p>i. What does this question even mean? Why would the town have any input to agricultural operations on private property? The old BOCES property now owned by the Town of Rush was previously leased for farming. Now the land is used for horses and trees. Is this the definition of agricultural operations?</p> <p>c. Preserve open space</p> <p>i. Another question without context.</p> <p>d. Encourage more development</p> <p>i. This question is too generalized and repetitious. There is a follow-up question on Business and Economic development later in the survey.</p> <p>2. Rush Hamlet</p> <p>a. Which of the following represents your vision for the best future of Rush Hamlet?</p> <p>i. For starters there is no definition of the Rush Hamlet? Is it just the 4 corners at 251 and East Henrietta Road? Or does this include property within: .5, 1.0, 2.0 miles of the Town Half. Hard to articulate a vision if we don't know the starting point</p> <p>b. Do you think the Town should require the appearance of new construction and building within Rush Hamlet to be consistent with the hamlet's historic buildings?</p> <p>i. This appears to be a duplicate question of "Keep the Town's rural character". Technology brings about improvements, e.g., vinyl siding, and why would a town want to be restrictive? And again, no definition of the hamlet.</p> <p>3. Homes in Rush</p> <p>a. Do you think that there should be a wider variety of housing options in the Town of Rush?</p> <p>i. Of course, I do, but there was no need for this question as the next detailed question could have been reworded to include no or no opinion.</p> <p>b. If yes, what types of housing options would you like to see in the Town? (check all that apply)</p> <p>i. I would check all the boxes. Senior living has been an issue for decades. The reality is people move to Henrietta because there is no option for senior living. Just ask the Town Recreational Supervisor why she moved to Henrietta? My ersonal opinion is the Town Board made a mistake by not allowing the old Foster Brooks property to hook up to the Henrietta sewer system. Look at the average age of a Rush resident. We will be moving to Henrietta in droves in the next few years because senior living housing isn't available.</p> <p>c. Do you think that concentrated housing development, such as patio homes or townhouses is consistent with the rural character of the Town?</p> <p>i. This question would have been answered in the detailed question above. You either check the box or you don't. No need to ask a generalized question when the detailed question provided the answer. Yes, I support all types of housing developments including tiny homes and an assisted living facility.</p> <p>4. Business and Economic Development</p> <p>a. What types of businesses would you like to see more of in the Town of Rush?</p> <p>i. Any business which could succeed! Why would a business want to locate to Rush? We don't have the population and the potential of imposing historical requirements for building exteriors is a major drawback for any business.</p> <p>5. Infrastructure & Utilities</p> <p>a. Are sewers needed in the hamlet?</p> <p>w. Why is the assumption a sewer would only serve property around the hamlet? Shouldn't the question be do you think sewers are needed? TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

Environmental Protection a. Has your property been affected by flooding (within the past 10 years)? i. No. b. Are you concerned about the impacts of flooding elsewhere in the Town? ir Like when the Town Hall flooded? Is this the reason the Town Board would support sewers? c. Are you concerned about water quality of Honeoye Creek, Genesee River, and other water bodies in Town? i. Why is this question in a Town of Rush survey? Rush does not regulate water quality. d. What is important to you about Honeoye Creek, Genesee River and other waterbodies in the Town? i. This question assumes there is importance to the Town and the Town has the ability to regulate. e. What environmental issues are most important to you? .. Overreach by the Town Board for items on private property. 8. Parks, Trails, and Recreation a. Which of the following parks, trails, or sites do you value for recreation? i. I personally don't use any of the listed sites. b. What improvements would you like to see at the parks listed above? i. This question presumes improvements are needed. Ask an average taxpayer how much of a tax increase they would support to make improvements. c. Which are your preferred forms of recreation on public lands and facilities in Rush? i. This question presumes this is our preferred form of recreation. d. How important is it for the Town to advance the following improvements to the Town's recreational facilities programs? i. Does the Town want to get sued when someone has an accident on any of these proposed recreational improvements. Why does the Town believe they need to provide recreational programs? I would like to see a cost v. benefit comparison of the current and proposed programs. I am not willing to pay increased taxes for these programs. 9. Transportation a. In the past year, how often did you walk, bike, take public transportation, or use an alternative form of transportation to get to a destination in the Town of Rush? i. This question assumes the residents of Rush only need transportation within the Town of Rush. Every resident in the Town of Rush must go to another town for groceries; 7-11 is not a fully stocked grocery store. b. What prevents you from walking, biking, taking transit or using alternative transportation in the Town of Rush? i. Ditto of the answer above. c. What are your primary concerns related to traffic and transportation in the Town of Rush? i. Road noise. 10. Demographics a. How long have you lived in the Town of Rush?. i. More than 25 years b. What is your age group? .i. 46-65. Getting close to being a senior citizen and moving to Henrietta. c. Where in rush do you live? i. The map is unreadable I There are no identifiable-highways or landmarks. reside in and pay taxes to the Town of Rush. My biggest concern is overreach by members of the Town Board and commi: {te s associated with the Town of Rush. Since the printer added the ID and it has no purpose for the Town or LaBella Associates, I have removed the ID number from my survey.

142	At one point I heard that new houses paid a fee that specifically went into the parks. Does the money go directly into the parks? I hope it will! Rush is a beautiful special place! Please do not allow sewers as this would lead to much development and change our special place.	3/1/2023 1:53 PM
143	Keep out solar farms!	2/28/2023 5:28 PM
144	The truck traffic on East River Rd is terrible! It is loud enough to interfere with our conversation sitting on our front porch! And we are 300' off the road! All the construction trucks from Henrietta building projects have made living on Eat River Rd undesirable. It was quiet when we moved here 23 years ago.	2/28/2023 5:27 PM
145	The loud truck traffic on East River Rd has become consistently disruptive enough to make sitting on our front porch (which is 300' off the road) undesirable. You can't carry on a conversation. There are now more trucks than cars. It was a quiet Rd. when we moved in 22 years ago.	2/28/2023 5:21 PM
146	The town should help people take care of their property. Example apartments across from Veterans Park always have stuff in front eyesore. The former Bock's store looks wonderful. Should allow them to finish apartments. House on Middle Road split level two houses from farmcrest roof is caving in, safety hazard. Their are more around town. Across from town hall sign is dismantled. House needs work.	2/28/2023 5:12 PM
147	Everyone should have quality water.	2/28/2023 4:55 PM
148	We need better drainage systems in several areas. We should have a public sewer system.	2/28/2023 4:43 PM
149	Get rid of the ugly cell tower on town hall. Get sewers. Build up Main Street. Invest in solar. This town has done nothing progressive for 50 years. Time for a cute, functional town with a small infrastructure. Coffee shop. Its been downhill after Big M left. The 7/11 is gross. Papas is a junkyard. Build infrastructure & encourage small businesses. Be energy independent. DO something!	2/28/2023 4:35 PM

predetermined answers based on some very tifted questions. In addition, I was told that non-resident business owners and property owners were not surveyed. This is a rank injustice, considering the large contributions of this group to the town and its residents. The implications of the survey and resulting Comprehensive Plan will generate new town zoning and code changes that could negatively impact many of them without their input. This is not acceptable.

156	Please make this a beautiful village. Encourage small shops & restaurants. Put in a sewer system. Add larger industry outside of the village, set back away from the roads. Add more, change more & make it a village people want to visit, sit out & look at the creek, enjoy local craft wines, beers, local foods, etc. Boring & rather ugly village now. I can't buy anything here.	2/28/2023 3:02 PM

158	As a long time resident of the Town of Avon and still very connected to Avon through my church, I believe they strike a good balance of maintaining rural character and providing all types of housing and a variety of large and small businesses. I know many older people there who have moved from larger houses to patio homes of apartments as their circumstances change. I believe that option should exist for Rush residents, so they can age and remain in the Town they love with people they know. Same seems true in Honeoye Falls, Lima, and Livonia. Fear of becoming Henrietta seems to hinder powers that be from improving Town of Rush.	2/28/2023 1:53 PM

161	Focus on public water/sewer lowering taxes, cutting spending, encouraging better internet @ reasonable price	2/24/2023 2:17 PM
162	Keep town taxes costs and budget low and do not create a situation where we as senior citizens long term residents can no longer afford to live here, for example we do not need public water in our area with the huge extra burden of the yearly cost of \$2400 + would impose on us.	2/24/2023 2:00 PM
163	Please listen	2/24/2023 1:54 PM
164	We could generate a lot more tax dollars for town if patio homes were emitted with sewers. "We need to look to future. Sewers could alleviate the flooding in the Hamlet. You say getting sewers sets a precedent - well if there are now sewers in the rural areas. The septic is still required. We constantly are applying for grants and other \$ from the state. What if they say no more - and Rush is made to join another township such as Henrietta or Avon. Let's got some more tax dollars and stop saying "no".	2/24/2023 1:12 PM

179	PLEASE PLEASE take some action on improving the vacant property at the corner of 251 and 15A. Over any other action or spending of money. It is an embarrassment to the town and will continue to overshadow any other proposals that could be raised.	2/22/2023 9:10 PM
180	The Town needs to think about ways to be welcoming to new people. This means creating livable spaces (where housing, transport, and recreation and other amenities are easily accessible for a wide range of ages, incomes and family-types). This might also mean supporting a diversity of events and businesses. We want a community that young people, seniors, and families will want to (and can afford to) live in. Finally, to make sure we are creating a community ready to meet the challenges of climate change, sustainability and more.	2/22/2023 8:20 PM
181	Please keep up the great work. Continue to listen to your residents. Transparency and keeping residents' best interests in mind is of utmost importance when being approached by or potentially influenced by individuals and entities who do not have Rush's best interests in mind.	2/22/2023 7:53 PM
182	Re map: cannot read map	2/22/2023 3:41 PM
183	This is a very nice survey. Thank you for sending it. Why are we (Rush) so focused on 'the Rural character of the Town'? *Please consider the climate smart community grant \$\$\$. *Please consider setting up a municipal trash service. Contract with one company - a low rate for all and less trucks/emissions.	2/22/2023 3:32 PM
184	Re Demographics: Not relevant. What about solar? Light industrial? Community commercial? Shopping for groceries, pharmacy, farmer's markets, agritourism, what are taxpayers willing or unwilling to support with tax increases. Why not a question about the library? Current recreation programs? What about increasing the variety of land use options - what is the cost? What are the benefits? To me the updates should focus on the projects that have been proposed with past two decades in our town - this survey is very limited in scope.	2/22/2023 3:24 PM

progressive changes and developments to come in such a conservative little enclave.

186	My wife and I lived in Henrietta ..."?". Owning our own home on a large plot of land was a goal of ours and were excited when the opportunity to do so presented itself in Rush. Our family is growing now and we are always looking for fun things to do with our children outdoors. Having a variety of ways to do that within Rush would be great! Alos, more to do within the Hamlet would be great for bringing the community together -> small shops, restaurants, etc.	2/22/2023 2:18 PM
187	Keep Rush rural & undeveloped in terms of industry & large projects. Do not bring city water & sewers unless unanimous consent. Scale back solar project - some solar & wind may work on smaller scale. Preserve wilderness areas at all cost!	2/22/2023 1:59 PM
188	Why is there no fall clean-up in Rush? That needs to be changed. Stop driving people into this area. I have lived here for 42 years, my entire age. We do not need more people to over develop. They can live in other areas. Raise our taxes instead. Where are the services for the aging population? Weatherization grants? etc. etc.	2/22/2023 1:07 PM
189	WAYS TO IMPROVE Rush has a unique opportunity to develop the hamlet into a "Hallmark" hamlet: 1) Town gardens need to be professional maintained - volunteers are great but the consistency in effort is not. 2) Take a look at the Village of Livonia and see what changes they have made to make that village a welcoming and beautiful area - Hanging plants, attractive benches for sitting, walkability 3) Rush has a reputation of not wanting progress. No sewers is a big issue. 4) Unfortunately Rush also has a reputation of being very "clique-ie" and not welcoming. That needs to change if you want people to move to Rush and develop a positive resident base. Rush needs to attract a younger resident base. 5) We need a grocery store/coffee shop - while I realize the old Big M lot is not conducive to development due to septic issues and spacing, why can't the house on the corner of 251 and 15A (owned by the Town) be sold as dedicated space to be developed as a small boutique grocery store/coffee shop. I know the historical society is being tapped for that but is that really a good use of that property? Sell it, get the benefit of a commercial tax base and make it something the town actually needs. I would bet that with the proper motivation, the building could be kept is and repurposed with some careful thought and planning. 6) As far as decorations for the town, I have been told that the town is waiting for National Grid to approve drops or something like that. Ok, stop waiting. Call every day if you have to get something done. 7) Greenlight needs to be ENCOURAGED to step up their presence. Why can't a Greenlight district be formed in the town to encourage their presence and get people on board. 8) Lots of people have great ideas but we need people who can implement these great concepts - we have a lot of wealthy people who live around the area who I am sure have resources to tap to sponsor certain recreation/pleasure spots in Rush. 9) GET RID OF THE OUTDATED FLAGS ON THE POLES. They promote business which do NOT exist and it is really embarrassing to the Town that those flags are still up. 10)Does Rush want to be known as a biker town? Need to really look at that. Not fun having hundreds of bikers stopping traffic because they feel they can during the summer. They do not obey the traffic laws and only spend money at the bar. So what do we really need them? The bar isn't thriving because of bad management, high prices, poor service and mediocre menu. 11)People need to behave with decorum at Town Board meetings. We are not back in high school. We don't need to be negative - we can find a way to work together. The attitude of the Town Board starts at the top and works its way down. Everyone should be on the same page - political party should not dictate one's performance on the Board. 12)Most importantly, the arrogance of the Town needs to change. Rush needs new blood. New ideas are crucial to its survival. We need to be open to new ideas and so what if something doesn't work, then you try something else!	2/22/2023 12:10 PM
190	Traffic and speeding enforcement; running red lights. Sewers in Hamlet w/ability to expand Expansion of Public Water. Preservation of "rural" character with some small business expansion.	2/22/2023 11:32 AM
191	There is nothing in Rush. Everyone dries through Rush to get north to shop and work. We should be more like Honeoye Falls with businesses and stores. Rush is a place you drive through to get somewhere else.	2/22/2023 11:23 AM
192	I wish there was more about sustainability - it would be great if any new builds above a certain size were required to have some amount of solar, for example. Incentives for geothermal, etc. I know it would never happen in a town as conservative as Rush... but know that there are progressives here, too.	2/21/2023 10:10 PM

194	Enjoy rural character of Rush. Some more development in the form of small businesses to offer more serious would be nice.	2/21/2023 5:09 PM
195	Need sewers in town. Some home lots in Hamlet likely have multiple dwellers just so they can afford to remain. If there was more business, that could improve the economic wellness of the town. Need a market (more than a convenience store), other small businesses.	2/21/2023 5:01 PM
196	I want to raise my family here. Rush has the small town feel with convenience to the city. I hope the town will continue to thrive and will bring new opportunities for young families. I would like to see continued support for the library - I use it frequently. I love the fire departments involvement with the parade and carnival. I hope that I will find a place in Rush to make my permanent home.	2/21/2023 4:47 PM
197	Re Map: Can't see the map! LOL! Our main concern is the center of town. 2 gas stations and an empty unkept lot where a grocery store used to exist. Also the properties on Rush Mendon Rd that are extremely unkept. The rental house next to us, the one with the blue metal roof, is a disgrace. frankly, makes our home look bad. We've put hundreds of thousands of dollars into improvements and to have that as a neighboring property is extremely distressful.	2/21/2023 4:34 PM

207	We moved to Rush from Henrietta because of open land and lack of development. Henrietta is ten minutes away and has all of the commercial and industrial needs. Farmland, parks, open spaces, minimal housing developments make Rush so enjoyable.	2/20/2023 3:32 PM
208	We need more commerce in Rush in order to offset our out of control taxes. (14,000+ per year). Unbelievable! If something does not change - we will move to a more affordable area. We pay as much as Pittsford residents with far fewer amenities. ENOUGH!	2/20/2023 3:10 PM
209	Bring some form of a small grocery/market store to the town. The old Big M space makes the town look dirty and run down.	2/20/2023 2:56 PM
210	Re: Demographics - This question has nothing to do with master plan. This survey is not asking questions about how much development; where should development be, and what is the vision for our town 5 years - 10 years from now. A master plan allows current and future/new residents a way to find out where they can live, open businesses, and what the future land areas will allow - It is all about land use - not pickleball - very expensive to try to update our master plan.	2/20/2023 2:47 PM

212	Your map for #3 is not useful. I live on Thunder Ridge Dr. 14543 and like it the way it is - peaceful, all traffic is for the golf club, otherwise it is a quiet neighborhood.	2/20/2023 2:08 PM
213	It would be nice to have a paved walking trail around the perimeter of the town park.	2/20/2023 1:39 PM
214	The Lehigh Trail is nice but too sloppy a majority of the year. Better maintenance or stone (or paved).	2/20/2023 1:35 PM
215	My family moved to Rush in 2019 with the express purpose of getting out away from the city. We have been so pleased with the rural feel of this town while being still close to bigger shopping areas like Henrietta. I really don't care for the idea of apartments/townhouses/developments creeping in and taking over the rural feel.	2/20/2023 11:04 AM
216	I want the town to be able to maintain a functioning hamlet area while also working with farmers in the outlying areas to ensure their parcels remain viable for future generations of farmers.	2/20/2023 10:22 AM
217	Solar power generation is a perfectly acceptable use of land in Rush. Encouragement of other renewable energy building is a plus. Allowing variances for free standing solar closer to roads than the standard 150' setback should be allowed when the property layout is appropriate for it.	2/19/2023 5:56 PM
218	I hope the town of Rush will be actively looking for ways to preserve more open land. It seems like every week I see another house going up on what used to be a field, pasture or farm.	2/17/2023 5:20 PM

220	I would like to see Rush stay a rural community. Farming is so important and we need to keep land free of houses!	2/17/2023 4:38 PM
221	No large scale solar! Simply drive by the new large scale solar array on W. Henrietta Rd. It's hideous AND covered in snow, producing almost 0 kw of energy most of the winter. Its only useful for about 4-5 months of the year. If large scale solar is installed ILLEGALLY in Rush, then the energy should be exclusively for residents of Rush until the supply exceeds that which is needed by Rush residents.	2/17/2023 4:28 PM
222	I like that our town reputation is rural and open. I would hate to see that change.	2/17/2023 1:53 PM
223	Need a better demographic in town - more places for renters, (affordable) for young adults	2/17/2023 1:06 PM
224	We are in dire need of better control of the speeding in the Hamlet, E. Henrietta Rd., Rush Lima Rd, Rush Mendon Rd "251". Need more ALERT signs at cross walks, passing on double solid lines in the Hamlet. NO safe crossings in Hamlet, NO school zone signs posted on 15A. Speeding is way above 45 MPH - 35 MPH to the R-H-T-L Road & into the Hamlet & out. Speed signs just do not make sense!	2/17/2023 9:35 AM
225	Leave town as is.	2/17/2023 9:16 AM
226	Please - no significant development. NO multifamily, NO industrial, no more agriculture.	2/17/2023 9:00 AM
227	I like Rush and don't want to see too much change. I am open to some development, including solar, but I think the overall mix is about right.	2/17/2023 8:13 AM
228	I would love to see senior housing development in Rush - preferably small homes which are eco-friendly (solar panels, heat pumps, etc.) - with walking paths nearby.	2/16/2023 4:50 PM
229	We NEED a grocery store. Also mor festivals like Rush-Days would be great. Take the Fireman's Field and do drive-in movie nights a couple times a month or every one weekend (Fir, Sat, Sun) a month in the summer with a range of different movies (throughout the summer)	2/16/2023 4:39 PM
230	I like Rush just the way it is (that's why we moved here). If you want or need goods and services, everything is an easy drive. There is no need to develop things here that duplicates what is already available nearby.	2/16/2023 4:33 PM
231	We, in Monroe County, are very fortunate to have a wide variety of living styles available to us: (Rochester - city living) (Greece - high density suburbia) (Henrietta - low taxes from constant development) (Rush -rural, agricultural laid back) No matter where you choose to lev, amenities offered by the other communities are only 10-30 minutes away. I do not see a need to make our community something other than what it already is.	2/16/2023 4:27 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

232	Light industrial and shops off 390 exit. small scal sewer system in Hamlet. Water access to Honeoye Creek along trail in Hamlet. Preserve farmland.	2/16/2023 4:14 PM
233	-There are properties that are an eyesore (2 are on 15A & Wardell Rd, but there are others). Enforce the town codes, please! -Put up Christmas decorations on the Main street oin winter. Hnag flower pots in spring/summer. Make "Main Street" more welcoming. (like other surrounding towns) -Bring a sense of pride back to our community.	2/16/2023 4:06 PM
234	Force the water authority to fix the leaking pipes from Hemlock to the water treatment center. The pipes have been leaking slowly for years. The pipes were fixed up to Jeff? Buf not past it. Keep roads repaired. Old Big M lot, coffee shop.	2/16/2023 3:53 PM
235	Before 390 was built I lived on Rush-Scottsville Rd as I do now. Route 251 was a rural road then and we often walked into town as children, no problem. As mentioned above (#3) the traffic is horrendous on our road now. It toally ruins the rural setting and also the speed limit is too high where I live at 45mph with people speeding constantly and large trucks rattling my home. Lower speed limits and police presence would definitely help! I love to walk but can't even cross the road safely the way things are right now.	2/16/2023 3:46 PM
236	Solar farm	2/16/2023 3:33 PM
237	100% convinced the solar farm in West Rush should continue.... It will have 0 impact on West Rush residents.	2/16/2023 3:31 PM
238	Invest in renewable energy.	2/16/2023 3:22 PM
239	Here is the bottom line - the town of Rush cannot even manage the eyesore as one enters the town - East Henrietta Rd & 251. It has been an eyesore and an embarrassment for years. If teh officials of the town of Rush cannot manage a small plot of land (a new business i.e. Bytrne Dairy or a park-like area) what makes me think this survey is nothing but an exercise in futility. Fix the entrance into our town, and then we'll talk.	2/16/2023 3:07 PM
240	Please resolve the "Big M Brownfield"; it is an eyesore in the 4-corners. Ask the owner to sell it or maintain it. It should look like a yard or garden.	2/16/2023 3:04 PM
241	Biggest thing is I'd LOVE a coffee shop or family restaurant in the hamlet. If we could work to attract suich a business (ideally in the ugly, empty lot where the Big M used to be) I think it would really improve the character & livelihood & connectedness of the town.	2/16/2023 2:57 PM
242	I feel very strongly about maintaining the open spaces and rural character of our town. I don't think people move here hoping we will get sewers industry and dense housing development. People move to Rush because they like what it is they are not it will soon become like Henrietta.	2/16/2023 2:43 PM
243	I believe better access to Honeoye Creek would be nice for kayaking. I would love more restaurants/bars. We have such a great opportunity to boost local business by allow snow mobiles into the Town from the greenway (Multiple restaurants and gas stations	2/16/2023 12:59 PM
244	More quaint small stores/shops and businesses in the hamlet would be nice - sort of like Pittsford and Honeoye Falls. 30 years ago there were more small stores in the Hamlet of Rush.	2/16/2023 12:14 PM
245	I'd love a general store and a diner and an upscale restaurant	2/16/2023 11:55 AM
246	the hamlet should be developed. One parking area with sidewalks & walkways. Bring Rush hometown days to this area.	2/16/2023 11:41 AM
247	I live near a large piece of land that has been put forth for townhouses (Foster Brooks property) Would not like many units to be built there. Nice houses on Birchstone Hillside of the property.	2/16/2023 11:21 AM
248	A grocery store of some type would be helpful. The vacant lot where the Big M was needs to be developed in some fashion - staying in the character of town.	2/16/2023 10:46 AM
249	Rush is falling behind the rest of New York State with respect to municipal water and internet. It is very hard to understand why the town has not found the means to provide municipal water throughout the town of Rush,	2/16/2023 10:34 AM
250	Solar only for homes - NOT for farmland increase in rec programs & faculties for our youth community	2/16/2023 10:32 AM
251	I love where I live. I know about being sustainable but I'd be happy if it never changed, What	2/16/2023 10:29 AM

about daycare for families? A list of what's available might be good. Senior care? Do we have any? I have no idea. Also dog parks are very popular.

252	Would like to see coffee shop or diner - casual community meeting space.	2/16/2023 10:17 AM
253	Never heard a word about new solar farm next to/on Werner Farm on Rt 15.	2/16/2023 10:13 AM
254	Both surveys could have been mailed together to save tax \$.	2/16/2023 10:01 AM
255	We need to attract young families to the town - need a grocery store & more shops - Industry is fine if done properly - landscaped, off-the-road. No development will lead to eventual decline of the town.	2/16/2023 9:45 AM
256	-Public sewer would be greatly desired. -Population control for deer and coyote. -Lower taxes. At this point there isn't much benefit to living in Rush, my taxes rival what i would pay in Pittsford or Penfield - both having much better amenities and schools.	2/16/2023 9:13 AM
257	Open up the old peanut row (Rails to trails). Traffic is too dangerous, need interconnected paths everywhere.	2/15/2023 5:41 PM
258	Grew up in the village, would like to see the 1911 House kept. Put something where the Big M was. Limit the size of solar projects! Small single house size only. Oak Openings is dangerous due to overcrowding for hunting. NO MASSIVE solar - Horseshoe!	2/15/2023 5:30 PM
259	I so value being a resident of Rush. I truly appreciate the time and consideration that the Board and other committees dedicate to making changes and improvements. I moved to Rush to live in a rural community that preserves a country environment and values agriculture. Rush is a gem, and I would like to see stay that way.	2/15/2023 5:22 PM
260	I am opposed to more development. Would prefer to keep rural character.	2/15/2023 1:42 PM
261	Rush does not need sewers, high density housing, soar farms or windmills	2/15/2023 1:37 PM
262	Rush is a beautiful place to live with it's wide open spaces & farming. It would be a crime to turn Rush into another Henrietta. Keep it the way it is!!	2/15/2023 1:33 PM
263	Would like to see the Hamlet built up to bring people in. Clean up auto-shop in the intersection.	2/15/2023 1:18 PM
264	Keep out big business's, keep it rural, don't make it easy for the farm land owner to sell off their lands to be developed into industry.	2/15/2023 11:11 AM
265	Limited housing for younger population. Do not need affordable (subsidized) housing. - dedicated pickleball courts for residents would be a plus. -swimming pool survey is a horrible idea. Extremely expensive. -protect the Honeoye Creek and its ecosystem by banning motorized watercraft. Someone tried to launch a jetski last year. I have bald eagles, osprey, beavers, fishers & too many birds & waterfowl to enjoy.	2/15/2023 10:54 AM
266	My husband and I moved to Rush because of the open space and the small town feel. Please do not turn Rush into another Henrietta! We do not need the open space turned into sprawling housing developments. Rush is a treasure, keep it that way!	2/15/2023 10:44 AM
267	I moved here because I wanted to live in a small town.	2/15/2023 10:38 AM
268	Community garden space to involve group & children, composting encouragement, resources and help (education). *Electric vehicle charging stations. Farmers market.	2/15/2023 8:33 AM
269	I'm concerned that there is a post on the Rush Community FB page to fill out the survey and have "your kids fill in out". and it shows how to fill it out "incognito" . If people do that, it won't give an accurate account of what the residents of Rush want, but it will be what a few people who fill out multiple surveys think. I am so upset and concerned about this. It upsets me that people are like this here in Rush. (or maybe not even residents of Rush filling it out)	2/14/2023 6:18 PM
270	A comp plan is only as good as the government follows it. Henrietta redid their plan in last several years. Residents clearly said to pursue open space & farmland. But if you drive N on East River Rd & see all the development, you'll see why I moved out.	2/14/2023 4:58 PM
271	Keep sewers out of Rush. Jack More does not live in town. Foster Brooks people knew zoning when they purchased.	2/14/2023 4:52 PM
272	I don't know how to answer a lot of these questions. I would like to see the old Big M property developed but understand it is privately owned. I would like to see cause of flooding addressed	2/14/2023 4:45 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

in hamlet. I would like people to have good water supply and sewers if needed. I do not have any needed additional services. My septic works. I have good water.

273	The preservation of farmland and open space couldn't be more important - not just to Rush but to Greater Rochester. People have moved to Rush for its rural character - we should not allow that special character to change, despite what profit - not what developers would like to do. More houses will RAISE taxes, taking in/using more services than they give in taxes. Note: the Rochester regional population isn't growing! On Homes: Senior housing & affordable housing don't work when they are isolated from support services, public transportation, & stores.	2/14/2023 4:37 PM
274	If you listen to people respond you will hear them say they want something that never existed. Rush has never had a commercial business center in the hamlet that lasted. There have been several individual attempts but nothing sustainable as a collective group.	2/14/2023 4:21 PM
275	Not answering (above question). Don't trust Town Board. They have already made up there mind on what they are doing. I appreciate that this is being done (survey) but nothing will change with the current Supervisor and its members. They are arrogant, not diversified and don't want to listen to anyone's suggestions. To sit in on a Town Hall meeting is a joke and they are confrontational. Let's see if this survey can open some eyes.	2/14/2023 4:13 PM
276	I enjoy the small town feel and lack of commercial development. I prefer to not pay for water & sewer, that is part of country living. I do not wish to see townhomes/condos or appt's built here, as I believe that would only lead to more development down the road. People who live in those types of homes want amenities close by, that is not something country living offers. We are a farming community and I would like to see it kept that way.	2/14/2023 4:06 PM
277	Overall, Rush is considered to be a fuddy duddy town with old values. We need to modernize and bring in some businesses. The Hamlet is not very exciting and needs more small businesses. Growth is important to the future. If we don't modernize, I'm worried folks won't move here when the older crowd is no longer with us. The Rush post office needs some lessons in courtesy as well. I go to Henrietta as they are super friendly. I hope changes are coming!!!	2/14/2023 2:22 PM
278	It would be nice if the Hamlet had more small businesses (like restaurants) to draw in people.	2/14/2023 2:07 PM
279	Can't Read the MAP!!! Please do this electronically next time - my handwriting is poor, not enough space to write, plus tabulation expense! Sorry, this survey is VERY disappointing - feels not relevant to my life, no idea what value will come from it.	2/14/2023 2:03 PM
280	Zero development has been allowed. The town has no growth and no new businesses. "Stagnant" is the best word. All other Hamlets around us have a development plan that at least something changes. Rush is known to be opposed and shuts down all developmental activities. Rush is not attractive to young families. "Stale and Musty"	2/14/2023 1:35 PM
281	Homes on 15A in town should be kept up to standard. More town activities, festivals in Spring & Fall. We have all that land for parking next to Firehouse. Decorate our town during Christmas holiday. *Do something with the old Big M lot. Small restaurant, or coffee dessert with outdoor tables to bring community together.	2/14/2023 1:20 PM
282	Keep Rush rural with farm lands, agricultural. Don't turn it into another Henrietta.	2/14/2023 1:19 PM
283	Concern about noise & light pollution to residential properties co-located to any commercial/industrial /light industrial development.	2/14/2023 1:18 PM
284	I strongly oppose urbanization. We moved here for the rural character. I don't want to live in Henrietta v2.0.	2/14/2023 1:17 PM
285	We moved to Rush 45 years ago. We built our own house on a piece of property we have loved. We chose the location because it matched what we valued. We are Rush residents - but we value closeness to the City where we continue to work and enjoy opportunities offered. We also chose this property because of being in the Honeoye Falls School District. We have connection to water system which we have supported over 20 years ago the town to secure. We like rural character of the town, and being close to City, mall, and easy access to the expressway. The rural character of the town is important to us!	2/14/2023 12:10 PM
286	I am anxious to preserve agricultural nature of Rush, & to limit large industrial development - No distribution center or other large trucking concerns. I'm new to Rush, but lifelong Henrietta	2/13/2023 5:09 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

resident - let Henrietta provide commercial space & keep Rush more rural. If Rush has commercial development along RT15 I will leave Rush & move further South.

287	Town Center should be the 'hub' for Activity. Modeled like Honeoye Falls &/or Pittsford Village. Any Light Industrial development should be confined to 'South' of 390 exit ramp on 15A & not in backyards of established residential housing due to light and noise pollution.	2/13/2023 4:49 PM
288	Guessing. HAHA - could you make it smaller (referring to demographic map)	2/13/2023 4:43 PM
289	I am quite content with life in Rush and the character of the area. I do not wish to see it changed in any drastic manner. The combination of rural and residential character is in my opinion well-balanced and I do not wish to see that changed. Thanks to all who took the time to seek our opinions on these matters.	2/13/2023 4:25 PM
290	Thank you for organizing the webinars and running this survey. I hope to see it's results published. My own view = I value our history, the rural (agricultural) work in our town, our environment (natural) and the people who live here. I would like to see less reliance on cars/roads and improved pedestrian and bicycle access. An increase and quality of natural/green spaces is also welcome. Please DO NOT turn us into West Henrietta or Henrietta. Thank you!	2/13/2023 4:04 PM
291	1) Sewers in the Hamlet are needed. People are misleading others into believing it will bring big development. We need small business development. Control big development by other means. 2) Shoulders on roads should be improved. Especially River Rd. 3) Building at Rush Riverside Reserve are deplorable. They need fixing up and are an eyesore in Rush.	2/13/2023 3:49 PM
292	Steps need to be taken to encourage the growth of business and activities that will alleviate some of the tax burden town residents carry. The lack of transparency and accountability with finances is absurd. Rush has become stagnant and inefficient as a result of a vocal minority interested in serving their own interests. This town needs to learn to grow.	2/13/2023 3:30 PM
293	Happy to talk over the phone. Victoria - 585-747-0870	2/13/2023 3:20 PM
294	DO NOT TOUCH THE FARMLAND!	2/13/2023 3:01 PM
295	Rush used to be a tidy well taken care of town, homes and business properties were tended to. A number of homes in Rush have unkept yards, obvious unwanted machinery piled up, shutters falling, no repair...	2/13/2023 2:40 PM
296	Public water X 10!	2/13/2023 2:34 PM
297	We (family of 3) moved here last year. We chose Rush because of the space and land. We would hate if anything changed that.	2/13/2023 2:28 PM
298	Do not spend any tax money!	2/13/2023 2:24 PM
299	We had our house built in 1966. We love everything just as it is.	2/13/2023 2:20 PM
300	Need to hold farmers more accountable for ecoterrorism acts (destroying hedge rows, logging, and excessive pesticide use). Preservation of trees & nature space is the utmost importance.	2/13/2023 1:46 PM
301	Need to find common ground on use of solar & wind energy.	2/13/2023 1:30 PM
302	I grew up in a large suburb of Rochester. I moved to Rush to find an alternative to crowded neighborhoods. If the town intends to develop its open space for more housing, especially medium-to-high density units, my days in Rush will be over. Show me some backbone and resist the globalist mindset.	2/13/2023 11:20 AM
303	We value Rush for the space, privacy and small town atmosphere. We would consider moving out of Rush if housing developments, solar farms, etc in cringe on our green space and the small town feel. Improvements are good but we don't want to lose our small town.	2/13/2023 11:14 AM
304	I have concerns about how people do not maintain their property in the town. Branches hanging over sidewalk making it easy to get injured. Not raking leaves off sidewalks, causing sidewalks to be slippery.	2/13/2023 11:04 AM
305	We need truth, transparency, and need to stop the existing government nepotism & cronyism!	2/13/2023 10:41 AM
306	Let's try to lower the cost to live in Rush - try town with trash at a lower cost; Internet service fiber optic, or either electric rates	2/13/2023 10:33 AM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

307	I am concerned with the town wasting hundreds of thousands of dollars of tax payer money for personal vendettas and fights, politicians serving themselves vs the people they are elected to serve. I am concerned about the aging infrastructure at the highway department, we need to upgrade our infrastructure before it is falling apart.	2/13/2023 10:21 AM
308	Rush is a nice town. It has grown in population over the last 30 yrs that I have lived here. Not much crime which is a good thing. Would like to have a diner near by. But a rural town like this should be kept that way. Too much expansion means higher costs. maintain what we have to keep it nice. There are plenty of places within reach for support.	2/13/2023 10:15 AM
309	Good job on sur.	2/13/2023 10:00 AM
310	Old Big M site is an eye sore - we need this changed - farm stand, small grocery store, coffee shop	2/13/2023 8:59 AM
311	I was raised in Rush and still own 56 farmed acres that have been in my family for 70+years. My daughter and son in law recently built a home on about 3 of those acres. I do not currently reside in Rush but would like to move back there in the future. I did not answer questions that did not apply or wasn't knowledgeable on.	2/11/2023 3:55 PM
312	One bridge over Genesee - Rt 251. Very high traffic, especially huge trucks, high speeds. Not good walking on NY251. Name of NY251 is not clear!!	2/10/2023 5:43 PM
313	Drinking water, downtown resources, bank, supermarket, DR. offices, Greenlight, get on utility companies fro maintaining wires, easier growth and development all over town. Stop trying to get more town funding through outrageous reassessments.	2/10/2023 5:33 PM
314	>Rush Riverside Refuge staying open for equestrian activities. >More town activity at RRR (Fall festival, etc)	2/10/2023 4:55 PM
315	Please find a way to lower the property tax rates.	2/10/2023 4:42 PM
316	I have seen comments on Facebook about a Farmer's Market. It could be set up on the parking lot area UDICIOUS Pavilion. If there is an interest in a community center, expand UDICIOUS Pavilion. Add meeting rooms, plus improve acoustics and put in an appropriate floor for exercise activities.	2/10/2023 4:13 PM
317	Would love small hardware store, restaurants	2/10/2023 4:00 PM
318	What happened to public water?	2/10/2023 3:49 PM
319	Limit any commercial development to site that have already been rezoned and not used. If site is zoned light industrial and not developed for a period of say 10 years it is moved back to residential.	2/10/2023 3:23 PM
320	When we moved here 35 years ago, the town had 2 grocery stores and other small businesses along 15A. Then there was a gift shop, ice cream place, sport card store, etc. We met most of our neighbors at the Big M while shopping, eating at the deli, getting ice cream. There was a "community feel" that was lost when the store closed. A Byrne Dairy or similar would be great! The empty lot where the Big M was is an eyesore. It's depressing! It leaves a bad impression on anyone visiting or contemplating moving here.	2/10/2023 3:16 PM
321	Town resident use of 1911 house	2/10/2023 3:01 PM
322	Need businesses; grocery store etc. Town is stagnate; need for activities to meet other people festivals, etc. People need to grow and get more "worldly", more informed and not just small town minded, clicks need better religious options	2/6/2023 2:08 PM
323	We need a simple store for accessing food. Some small industry would be nice. We need to grow a bit we are dissolving, maybe consider merging with Honeoye Falls.	2/6/2023 1:45 PM
324	Nothing. I don't want someone else managing our trees.	2/6/2023 12:31 PM
325	The empty corner at 251 and W Henrietta Rd across from Park and Ride - coffee shop and drycleaner would be perfect - need sewers to entice small bushiness. Former BIG M site - eyesore another area for a laundromat and drycleaner small business - Spa - coffee shop/deli	2/6/2023 12:22 PM
326	I will probably be dead r moving in the next 15-20 years	2/6/2023 11:54 AM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

328	I was surprised and pleased to see the installation of EV chargers at the town hall site, and have already utilized them.	2/3/2023 9:00 PM
329	Keep taxes down! I moved here for the rural quiet. Keep it that way.	2/3/2023 2:04 PM
330	The highly polluted land on 251 and Genesee River and School of Industry. What are you doing to clean up said land and stop polluting the Genesee River.	2/3/2023 1:41 PM
331	Limited development in the village would be nice	2/3/2023 12:45 PM
332	I am so thankful for brush clean up every spring! Thank you. Please do not offer excessive tax incentives for businesses to locate in Rush.	2/3/2023 10:34 AM
333	Would it be possible to publish another pamphlet including Rush businesses and residents as done years ago. We find (found) it was a good reference for businesses needs and local citizens.	2/3/2023 9:16 AM
334	We are concerned that soo many houses are taking over previous farm fields and these homes are not of distinction, good quality We do not know our neighbors and a compilation of business and residents would be helpful.	1/31/2023 4:48 PM
335	I have lived in 10 different places. What is the most appealing when looking for a place to live is if it offers a major grocery store, a discount merchandise store for the essentials such as dollar tree, and a gas station that keeps their prices low. Then, you don't have to a reason to leave your own town.	1/30/2023 7:33 PM
336	Please keep up the efforts to preserve our town's character while allowing enough of the right kind of change and evolution to keep it a great -- or even better -- place to live. Thank you for the opportunity to provide input.	1/30/2023 5:23 PM
337	We are concerned that so many homes are taking over previous farm fields and that these homes are not of distinction, good quality. We do not know our neighbors and a compilation of business and residents would be helpful.	1/30/2023 1:45 PM
338	Thank you for facilitating this Comprehensive Plan review.	1/30/2023 1:40 PM
339	We need to get the truck traffic from the quarry moved from West Henrietta Road to I390. The passing zone on West Henrietta Road just before Rush West Rush Road needs to a no passing zone. Trucks and cars pass zoning through a busy intersection.	1/30/2023 1:34 PM
340	Just reemphasizing preservation of rural character. I believe that this is what the majority of residents want, but the minority is very vocal. We need to combat the mistaken idea that development lowers taxes.	1/29/2023 6:22 PM
341	A few more stores and restaurants would be nice but no housing developments or factories. Air and water pollution are a concern.	1/28/2023 7:19 PM
342	I am opposed to extension of public water system. It is too costly	1/28/2023 5:36 PM
343	On or about the 1990 the Town and surrounding area could have had sewers at a small cost but chose not to. This was a huge mistake and lacking foresight. Now 30 years later the town is looking at managing solar farms. My how far we have come but regressed.	1/28/2023 4:56 PM
344	I would like to thank the Committee for their work. I cannot state enough the value I place on the rural nature of the area and what I think is its uniqueness in Monroe County and the general Rochester area. I am very fortunate to be able at this point in my life to be willing to pay more taxes or otherwise participate in the Town and so that is not an issue for me. As far as development goes the primacy of preserving the rural character should trump any other developmental concerns (except for safety etc)...thank you for the opportunity to participate - Dave	1/28/2023 12:07 PM
345	The hamlet desperately needs a small market/coffee shop. The hamlet needs holiday lighting. Half the town does not have access to public water and it is desperately needed by some residents who have no potable water. This is a MUST HAVE. We do NOT need sewers.	1/28/2023 11:44 AM
346	Anything to be done at the old grocery store/gas station?	1/27/2023 9:56 PM
347	1. The speed limit on 15A at Leary School is 45. Then it increases to 55 for 1/2 mile, then decreases to 35 as traffic enters the hamlet. There are families with young children living on Rt. 15A. The speed limit should be 35 mph at Leary school and stay 35 all the way into the	1/27/2023 6:44 PM

village. 2. The intersection on Rt 15 and Rush-Henrietta Town Line Rd has extremely limited visibility. I don't use this intersection any more because I can not drive onto 15 safely. It needs a traffic light to stop traffic on 15 or it needs to be rerouted. There have been deaths at this intersection. That should be more than enough information to make this intersection safe.

348	I love the rural character of Rush, but it would be nice to have some development in the hamlet.	1/27/2023 2:30 PM
349	We need to get creative about having services in the Hamlet. Where we can meet our neighbors and create a greater sense of community. The Big M served that role in Rush. Perhaps the days of small town grocery stores are gone, but a coffee shop, convenience store or something walkable would do much to improve the quality of life in Rush.	1/27/2023 11:33 AM
350	Love this town. Would support a local grocery if we got one like we used to have.	1/26/2023 9:33 PM
351	Affordable municipal water is very desirable as we advance in age.	1/26/2023 3:09 PM
352	Keeping the rural atmosphere of Rush is my #1 priority. I have lived here 43 years and absolutely love this town. If anyone wants more industry or housing choices they can easily move to Henrietta.	1/26/2023 12:13 PM
353	Am concerned that a few residents overpower the wishes of many. Also, as stated previously the board is not strong enough to oppose certain entities and stand up for the residents.	1/26/2023 12:00 PM
354	Too much 15A traffic from Honeoye Falls going through Town. They need their own exit on #6 Road.	1/26/2023 11:59 AM
355	Good maintenance. I LOVE RUSH	1/26/2023 11:45 AM
356	This survey appears to have been designed to justify the anti-solar agenda. Lots of questions about preserving the town's character, right up front. And despite the large amount of my tax money going towards preventing solar, there were no questions about that anywhere in the survey. This is the type of lack of transparency that needs to be eliminated from our town politics.	1/26/2023 9:26 AM
357	Rush should keep its rural character, let Mendon have all the big houses and Henrietta, Victor, Greece, Webster and Irondequoit have the new high density housing.	1/25/2023 6:17 PM
358	Do something with the lot on the corner of Rt 251 and E Henrietta. It is an eyesore. Look into alternative cash crops to help agricultural income.	1/25/2023 1:02 PM
359	Construction and existence of "Horseshoe Solar" will be an end to Rush's pastoral existence.	1/25/2023 10:38 AM
360	I don't want to pay for other people's water problems. No one helped pay for my water supply, except me. If you want services you should pay for your own. The library is outstanding, lots of activities and friendly staff. Thanks. Why is the town so divided at election time; it's hard to know who to believe on issues? The town missed the boat on water and sewers years ago...	1/24/2023 4:16 PM
361	The code enforcer has no compassion at all. He harassed me quite a bit. To sit in someone's driveway and then just back out.....Just looking for something to cause trouble. Rush used to have people that cared for others. Not anymore !!! The town needs something to bring people to it.	1/24/2023 3:42 PM
362	Code enforcement officer very rude and disrespectful, trespasses on your property without permission. Harasses you when trying to clean out a house after someone passes away and has no remorse for your loss. Makes up his own laws about a dumpster being used stating you can only have it for no more than 3-5 days (which is a lie) as stated the town needs to stop overstepping their boundaries. Town of Rush officials need to admit their mistakes they make and not harass so many long time residence. Rush needs growth in viable businesses. And also Rush needs to stop hiding the fact the Rush Fire Dept. hired 3 individuals to first respond to calls which is a waste of tax payers funds when they do not respond in Rush ambulance to transport they only first respond and they just stated in the town news letter that the Fire Dept. is full volunteer. Once they hired paid personal that makes them not 100% volunteer anymore and that needs to come off the side of each vehicle	1/24/2023 3:40 PM
363	I think the town could benefit from more small businesses to draw more attention and community involvement. I'd also love to see either shoulders widened, or sidewalks added to provide safety to walkers, bikers, and runners.	1/24/2023 3:07 PM
364	Since the Rush Hub does not offer a traditional gathering place for residents, it is essential to	1/24/2023 2:37 PM

TOWN OF RUSH COMPREHENSIVE PLAN SURVEY

use 21st century options to more effectively reach, inform, educate and engage. Even though there are only 3,500 residents, many of us love living in Rush, but cannot be reached by the Pennysaver, local town newspapers, special mailers and even emails. The Town website has been notoriously unfriendly to users, either because of lack of proactive admin, stodgy design and the tendency for not being completely detail transparent out of fear of potential backlash. Promotion, education, information, advocacy, all of this can be done more effectively when complementing traditional methods to reach residents. This online survey could have included more information about everything to better inform our decisions and help us make a habit of regularly clicking for guidance, event dates, volunteer ambulance elections, ad infinitum. Thank you for the opportunity to participate even at this date in the process.

365	In-home business opportunities are needed. The town needs a market! The hamlet needs care and planning. The hamlet needs physical enhancement - dress it up! The hamlet Park/trail system needs to be developed. Sewers will provide a gateway to development-zoning will not stop it. Sewers must be prevented! Rush should not have homes without water! Existing homes need to be supplied. Investigation needs to be done prior to further development.	1/24/2023 1:00 PM
366	would love to get on a sewer system, maybe a family restaurant or convenience store	1/24/2023 12:21 PM
367	The survey is well constructed. Thank you.	1/23/2023 7:19 PM
368	We are absolutely opposed to any high density housing in Rush. Accessory apartments are OK, because they are limited.	1/23/2023 2:14 PM
369	Very strongly oppose any solar development that is not on roofs. For many reasons but detracts from rural nature of area (which is what attracted us to this area for our first home)	1/22/2023 4:12 PM
